GILLETT DENIES HE IS NO LONGER CANDIDATE. PRAISE FOR MAYOR MOTT

Says Oakland's Executive Would Make an Excellent State Chief, 'BUT' I Have Not Yet Withdrawn

SAN FRANCISCO, Jan. 18.—Governor James N. Gillett, who arrived in this city yesterday for a short sojourn, and registered at the Fairmont hotel, was very much surprised this morning to learn through a morning newspaper that he had formally announced that he was out of the race and that he had urged Mayor Frank K. Mott of Oakland as the most likely candidate for the office of chief executive of the state.

"I have frequently said," declared the governor to a TRIBUNE representative, "that Mayor Mott was a man of great executive ability, and has a fine grasp on the affairs of state, and I have expressed the opinion that he would make a fine governor."

"My feeling regarding Mayor Mott's ability in this direction, and my idea that he would be a fitting man for chief executive of the state, has led me, on several occasions, to make public my views on this matter."

"I do not recall, however, that I have said anything regarding them late. I notice that Mayor Mott repudiates the statement that I have urged his candidacy for governor and that I am out of the race, and there is absolutely no truth in it."

In No Hurry to Make Up My Mind, He Says

"I might say that as far as I know Mr. Cooper [the governor's secretary] has also made no statement in this connection. As I understand it, Mr. Cooper is interested with Mayor Mott in some unimportant deal, and they see each other frequently in connection with contracts."

"This, of course, may have led someone to put two and two together and come to the belief that I have made up my mind to be out of the fight, and to urge Mayor Mott's running for the office, but there is absolutely no truth in it. I am just here for a few days, and may return to Sacramento tomorrow."

"You can say for me that I have not at all made up my mind as to what my intentions regarding my candidacy for re-election are."

"I see no hurry in making up my mind on this matter, and I do not intend to make public my intentions for a long time to come."

Secretary Cooper Denies Newspaper Story

SACRAMENTO, Jan. 18.—When seen by a TRIBUNE correspondent this morning in reference to the story printed by a San Francisco morning paper that Governor Gillett has announced to Mayor Mott of Oakland that he will not be a candidate for re-election, and had advocated the nomination of Mott, the announcement from the one official to the other being made, it is said, by the governor's secretary, E. C. Cooper, the secretary said:

"The story printed in the morning paper is without proof. The governor has not told me that he would not be a candidate for re-election, nor have I carried such a message from him to Mayor Mott of Oakland. However, the story might have been founded on the fact that Mayor Mott and I are interested in a real estate deal, and also that I have several friends from Humboldt who are working in Mayor Mott's real estate office, and when I am around the bay I usually call to see them."

"Apparently some reporter knew of my visits to Mayor Mott's real estate office, and from that fact construed the story which is given publicity."

Desperate Attempt Being Made to Save Banker Walsh From Prison Cell

CHICAGO, Jan. 18.—The last hope of John R. Walsh, the former Chicago banker, of keeping out of prison was shattered today when the United States Circuit Court of Appeals overruled his motion for a new trial on the grounds of the alleged misconduct of jurors in the original trial.

The court also ordered a mandate to be issued by the District Court, the court of original jurisdiction.

It was expected Walsh would be sentenced in the District Court this afternoon and be turned over to United States Marshal Marshall Hoy.

Walsh did not appear in court, but passed the greater part of the morning in his office. Shortly before the court gave its decision Walsh had been apparently given an intimation of the findings, for he left his office, jumped into a cab and was driven in the direction of his home.

Jan. 18.—United States Marshal Hoy announced that Mr. Walsh would be taken to the Federal prison at Leavenworth, Kan., tonight, arriving there tomorrow morning.

It was said later that Mr. Miller, chief counsel for Walsh, would begin habeas corpus proceedings this afternoon. Judge Landis ordered a clerk to make out a writ of habeas corpus and it was delivered to Marshall Hoy.

Mr. Walsh would allow Walsh to remain at home in custody of the deputy until it was time to go to the train.

MADISON, Wis., Jan. 18.—Judge Sanborn of the Federal District Court will leave on a special train at 4 o'clock today for Chicago for the purpose, it is believed, of hearing a petition for habeas corpus for John R. Walsh. He cannot

get there by 8 o'clock, when Marshal Hoy is scheduled to start for prison with Walsh.

Judge Sanborn said this afternoon that there was no haste, as far as he knew, in the Walsh case, that some time ago he arranged to be in Chicago and sit in another matter, but today District Attorney Sims of Chicago wired asking him to come immediately. Judge Sanborn said he presumed it was in regard to the Walsh matter and stated he would take the regular train at 4 o'clock.

Musician Must Face Trial for Embezzlement

Governor Gillett this afternoon, in Sacramento issued a regulation upon the Governor of the State of Washington for the arrest and return to Oakland of E. W. Tubbs, a musician now in jail in Walla Walla, in that state.

Tubbs was wanted in this city on a charge of embezzlement, preferred by Leigh Ingalsbe. Both men were musicians and played in the band at Idora Park. Tubbs is accused of securing a cornet from his friend valued at \$100, by a transaction which has been construed by the authorities of Oakland to be embezzlement. He is also wanted in one of the police courts on a charge of failing to provide for his minor children.

Auction
We will sell at public auction the furniture of a five-room house, including beds, tables, carpets, stoves, dishes, etc. Thursday, January 20, 1910, at 938 Market street, at 10:30 a. m. All must be sold.

SPRAGUE & ASHCRAFT, Auctioneers, office 1064 Washington street, room 2.

Paulhan Plans to Fly 30 Miles Over Sea

MME. PAULHAN, wife of the famous French aviator now in Los Angeles, who has set the fashion in the way of aviation costumes for women. This picture shows Mme. Paulhan in her costume about to enter the machine in which her husband is now making such wonderful flights.

BALLOON GOES AFTER NEW ALTITUDE RECORD

High Flight of the "New York" to Clouds Causes Fresh Thrill

LOS ANGELES, Jan. 18.—The balloon New York landed on the aviation grounds at 12:35 p. m., after a trip of thirteen miles from Aero park.

Shortly after his balloon New York landed at Aviation field, Clifford B. Harmon announced that the balloon would ascend from the field later in the day to establish an altitude record for spherical balloons in Southern California.

LOS ANGELES, Cal., Jan. 18.—With the balloon New York on its way to the clouds after the world's altitude record, the crowds that came to Aviation Field today settled down to experience new thrills.

Rumors of daring flights by the aviators, Paulhan and Curtiss, served to whet the appetite of the regular visitors to the field who were beginning to fear that the most had developed into a commercial proposition.

LONG FLIGHTS PREDICTED.
Curtiss was expected to start at any time in his scheduled flight to San Diego, ninety-eight miles away, for a \$5000 prize.

Paulhan, it was rumored, would offer this by going to Catalina Island, thirty miles over the sea from San Pedro.

There was no start made in either of these trips by noon.

The committee in charge of the meet announced this morning positively that there would be no extension of the meet after Thursday.

MME. PAULHAN TO FLY.
Today was officially designated as "Ladies' Day." Members of the Women's Aero club of Southern California were present in large numbers. The announcement that Mrs. Mott

(Continued on Page 4.)

MRS. CHRISTY DRANK WITH HUSBAND'S CHAUFFEUR

Artist's Father Declares She Was Frequently Intoxicated at His Residence

ZANESVILLE, O., Jan. 18.—The bitterest accusations against Mrs. Howard Chandler Christy yet heard in her suit against her artist husband to gain the custody of their daughter, Natalia, were made by Frank M. Christy, the artist's father, from the witness stand in the probate court here today.

Mr. Christy said Mrs. Christy often visited at his home and that she often became intoxicated. At times, he said, she was accompanied by Mr. Purdy, the chauffeur and they often drank together. He said she was out many nights, averaging about four out of each week, until a very late hour, often returning home under the influence of liquor.

NOCTURNAL DRINKING BOUTS.
Mr. Christy told of often discovering evidences of a little party about his farm at Duncan Falls, where there would be a collection of beer and whisky bottles and imprints of a woman's and man's shoes.

He also said Mrs. Christy was of a violent temper, frequently using profane language in his house and called her husband names.

He said that on one occasion, while at dinner, Natalia also being present, the artist left the table and went out. He said he followed him into the parlor, Christy said, and at that time he saw his wife and the chauffeur drinking together. The quarrel continued until he quieted the couple.

Special Auction Sale
of the fine furniture, carpets, etc., of a first-class apartment house. Sale at 5 Franklin street, near Ninth, Oakland, Wednesday, January 19, at 10:30 a. m., comprising in part: Fine large Axminster rug, Brussels carpets, lace curtains, pieces of parlor furniture, tables, elegant oak sideboards, dining tables, and iron beds, folding beds, oak and mahogany dressers, chiffoniers, bedding, mattresses, ranges, gas stoves, etc., etc. Also horse and wagon.

POLICEMAN'S PLIGHT MAY UNCOVER POLICE SCANDAL

LIBERALS NOW CERTAIN OF RETURN TO POWER

Winston Spencer Churchill Among Those Who Seem Sure of Election

NET UNIONIST GAIN TO DATE IS THIRTY Radical Coalition Is Fighting More on the Defensive Today

LONDON, Jan. 18.—The further unopposed election today of eleven Nationalists among whom was William Redmond, representing East Clare, and three Unionists, brings the candidates elected up to 223, or one-third of the entire membership of the house of commons. The Unionists are in the van with 99 of their candidates elected against the combined Liberal and labor aggregate of 86, while the Nationalists now number 27.

POPULAR VOTE.
The Unionists obtained 1,033,251 votes, the Liberals 865,116 and the Laborites 1,077,804. The coalition of the Labor and Liberal parties thus has a majority of 29,669 of the popular vote.

In London alone the tariff reformers have a majority in the popular vote of 22,115 thus far. David Lloyd George, chancellor of the exchequer, said today the results were exceedingly satisfactory to the government.

"Unless I am very much mistaken," he added, "they indicate that the Liberals will be returned to power with a substantial working majority."

LONDON, Jan. 18.—Completed returns from yesterday's elections for members of Parliament make the standing of the parties to date as follows:

Government coalition: Liberals, 79; Laborites, 17; Irish Nationalists, 16.

Opposition: Unionists, 99. Net Unionist gain, 30.

The Radical coalition fought more on the defensive today than heretofore, as of the thirty-six seats for which polling was in progress they held all but ten in the last Parliament.

FATES ARE DECIDED.
The front bench politicians whose fates were decided today were: Winston Spencer Churchill, for Dundee; Sydney C. Buxton, for the popular division of Lower Hamlets; Walter Runciman, for Dewsbury; William Snowden Robson, for South Shields; Liberals—and Albert Lyttleton, for St. George, Hanover Square, the former Conservative minister. All of these appeared certain of re-election.

The representation for Bermondsey, where John Dumbfries scored a sensational Unionist victory in the bye-election of October last, also was in the melting pot, and as Dumbfries this time met an undivided opposition, the seat quite likely has reverted to the Liberals.

Yesterday's results were completed with the counting of six districts, to which today's added the unopposed return of Unionist Robert I. O'Neill of Mid-Antrim, and National John Dillon, for East Mayo, S. G. Swift-McNelly for South Donegal, and S. W. R. Nugent for Southwest Meath.

Armours and Swifts Sued Under Trust Law
TOPEKA, Jan. 18.—Attorney-General Jackson today began a suit before Judge True of the District Court of Kansas City, Kan., against the Armours and Swifts, the packers, and their agents in Kansas. The suit is brought under the Kansas law, which provides a penalty of \$100 a day for corporations which are members of combinations. It is alleged that the Armours and Swifts are members of the Kansas City Exchange.

The suit is a civil one and follows the indictment of the packers in Missouri.

Flood Is Taken to Folsom to Serve Term
A. J. Flood, sentenced last Friday by Superior Judge Brown to serve one year in the penitentiary for forgery, after denying his application for probation was taken to Folsom this morning by Under Sheriff J. J. Hanft Jr. His departure from the county jail was without incident and none of his relatives or friends were present to say good-bye.

While employed as clerk in the office of former Public Administrator George Gray, Flood forged the name of Under-taker E. James Finney to a fraudulent claim for the estate of the late A. L. Pomatocha.

SIX SLASHED WITH RAZORS IN RUNNING FIGHT WITH TRIO

LOS ANGELES, Jan. 18.—Frank Doyle, Joseph Clark and John F. Ward of San Francisco are in jail today, charged with having seriously wounded six persons with razors last night during a running fight, in which more than fifty men took part.

The prisoners are alleged to have attempted to rob a pedestrian soon after arriving in the city. The incident brought a mob rushing upon the attackers. Doyle and his companions are held to have drawn razors and held the angry crowd at bay until they were overpowered and taken to jail.

FIND OFFICER UNCONSCIOUS IN A POOL OF BLOOD

Prisoners Wander Handcuffed While Guardian Lies in Lot

SAY THAT IT MAY BE RESULT OF DEEP PLOT

Policeman Slattery Was "in Bad" and Threats Were Made to "Get Him"

SAN FRANCISCO, Jan. 18.—The discovery of Policeman Thomas Slattery of the Potrero station, lying unconscious, with a lacerated scalp and a possible fracture of the skull and two prisoners handcuffed together roaming about the district, has led to an investigation, which in its scope, may disrupt the entire company presided over by Acting Captain Shea.

Notwithstanding the fact that the men under arrest, who are held in detention, tell a fairly plausible story and the report of the officers concerned tells that the breath of the stricken policeman "gave forth a strong odor of kerosene," it is asserted in some quarters that the patrolman, who is a new officer, has been jobbed and may be paying the penalty for bringing a woman named Maria Rossi before the board of police commissioners.

WOMAN MAKES REPORT.
A woman whose name has not been learned, notified Acting Captain Perrin at an early hour this morning that two men and a police officer had alighted from a car and had had a quarrel which she feared would result in trouble. Policeman Welch was detailed to investigate and on approaching the corner of Eighteenth and Tennessee streets he met James Davina of 1407 Mariposa street and Louis Alfano of 1818 Texas street, handcuffed together.

The former complained of a cut in the head and a lacerated scalp. He was treated by Dr. Perrin at the Potrero hospital before both were conveyed to the station and booked in detention.

SAYS OFFICER BEAT HIM.
Davina declared that they had been at the corner of Mariposa and Tennessee streets, when they had been arrested by the officer, who took them on a car to Eighteenth and Tennessee streets, where, after they had been arrested, he beat him down and kicked him and punched him in the eye. He said the officer had dropped his revolver, and that the two men had tried to pick it up to give themselves up at the Potrero station.

Lieutenant Perrin thereupon detailed Corporal Hurst, Policemen Crowley, King, Black and Lofton to search for Slattery. The two last-named found him face downward in a pool of blood in the block bounded by Eighteenth, Nineteenth, Tennessee and Kentucky streets. When taken to the Potrero hospital he was unconscious of the odor of liquor on Slattery's breath but makes no further comment.

MAY BE BIG PLOT.
The staff officers at police headquarters, however, furnished a list of Captain Shea, have made a thorough investigation and learned that Slattery, who is a new officer, is not a drinking man. Moreover, it is said that when he brought Maria Rossi before the police commissioners, he incurred the displeasure of certain brother officers, who had a registered belief that Slattery may have been "jobbed," and that he is a thorn in the side of certain ones who are reaping a harvest from the district.

It is claimed that after the Rossi matter came up before the commission he was threatened and accused of having brought charges against the woman because she would not give him money. This is now at his home in a serious condition.

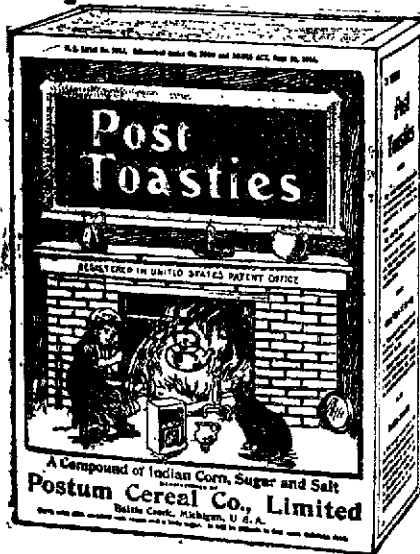

EXTRAORDINARY AUCTION SALE
We have received instructions from Mrs. Thomas R. Cassell to sell the elegant furnishings of her home, 617 Oakland avenue, near Moss avenue, Linda Vista Terrace, Oakland. Sale Thursday, January 20, at 11 a. m. House open for inspection Tuesday and Wednesday, Jan. 19 and 20, from 2 to 4 p. m.

Some of those who will take part in the production of "An Unlucky Chap."

LOCAL PLAYERS GROW AMBITIOUS

Are Preparing to Stage Play That Was Popular in Europe

Alfred Farnell, a young business man, who has been successful in the theatrical line, has secured the rights to the play "An Unlucky Chap" from the German. The play was a great success in Europe and is now being produced in this city. The play is a comedy and is full of fun and laughter. It is a play that is sure to be a success in this city.

SOUL-MATES GO DIFFERENT WAYS

Grocery Bills and Gossip Put Extinguisher on "Higher" Matrimony

Their spirit broken by the stern ostracism of outraged conventions and their faith shattered by their inability to meet the monthly bills, Dr. Hyman Harding and Mrs. Ruth McDonald, exponents of a spiritual marriage as exemplified by the refusal of the law of marriage, have decided to separate.

ACTRESS PELTED WITH PLAYLETS

Offer of a Thousand Dollars for Sketch Brings Heavy Results

Frances Slossen today made an announcement to the amateur and professional playwrights of the city which had all the effect of a bomb shell bursting in a circle of literary folk. Miss Slossen was formerly leading lady in Ye Liberty Theater. She is now with her husband, Franklin Underwood, at the Oakland Orpheum, as one of the bright particular stars.

MAN IS MISTAKEN FOR REAL THUG

Victim of Bartender's Bullet Saturday Night Not Believed to Be a "Holdup"

John Schaez, who lies dangerously wounded at the Acropolis hospital as the result of a pistol shot inflicted by S. E. Swanson, Saturday night, near Adam Kraft's saloon at Park street, near the tidal canal, is not a thug and instead is the victim of a mistake on the part of the bartender.

This is the theory of Dr. Booken to whom the wounded man went in his pangs of his almost mortal wound, and of Dr. J. M. Shannon, the superintendent of the hospital, where the wounded man now lies, with his life hanging by a slender thread.

The theories of the doctor's are borne out by other facts and the good reaction of the wounded man holds among his neighbors and friends and from physical conditions that existed at the scene of the shooting.

INSISTS ON INNOCENCE. Schaez insists that he was innocent of any intent of committing robbery or any other crime when he was going in the direction of Kraft's saloon on that night that the bartender shot and had taken flight and from where the bartender emerged and fired the shot that laid him low.

The place where the bullet entered Schaez's body renders the story told by Swanson of the shooting highly improbable. He claimed that he fired at a fleeing man and shot him down. How the bullet could have entered the left breast of his fleeing victim required explanation, and Swanson refused to give one.

That, too, seems hardly possible in view of the fact that the supposed robber would have had to turn and twist himself about like a serpentine dancer to have received the bullet in the position in his body where it entered.

PROBABLE FACTS IN CASE. The indications are that Schaez was walking along in the vicinity and was about to go into the side door of the saloon to get a glass of beer and was shot down by the excited Swanson, who had just been held up by a thug.

Schaez is too weak to talk and explain the circumstances under which he was shot. His going to the saloon is due to the fact that he has been acquainted with the physician for many years and his request to withhold the fact of his being wounded from the police is a trait which the lower class with a desire to avoid the police.

MAN OF GOOD HABITS. As to the claim that he was the robber who shot down Deputy Sheriff Andrew Lindquist at the Moore saloon near Albany can be dismissed without further inquiry, as his wife and neighbors prove an alibi by testifying that he was at home on the night of the tragedy and could not have possibly got out in that vicinity at the time the shooting took place there, besides Moore gave the man who entered his place the name of Schaez.

Police believe in him. Schaez is, in fact, a third sort of a man and is the last one in the world by appearance, would be taken for a desperado. Captain of Detectives Peterson declares that every man is innocent until he is proven guilty, and that his opinion as to the identity of Schaez is based upon the reports he had received and his belief that the man who entered and held up Kraft's saloon on Saturday night, concluded that the man who was followed by those of the man who entered Moore's place and killed Deputy Sheriff Lindquist.

"Truth is always stranger than fiction," declared the captain, "and it is possible a mistake has been made, and I hope to be able to solve the mystery."

Will of Millionaire Admitted to Probate. Judge Wells, sitting in the probate department of the Superior Court, this morning admitted the will of the late George W. McNear, millionaire "grain king" of California, to probate and appointed the widow, Amanda McNear, his executor, as provided for in the instrument.

It came out during the taking of testimony that long before his death McNear incorporated the greater part of his extensive holdings into various companies and had distributed the same among them in this form, however, his heirs always having regard, however, for his widow's rights. On account of these pre-mortuary distributions it was shown to be impossible at the present to state the value of the remaining estate, although Deputy District Attorney Leon A. Clark, counsel for Mrs. McNear, indicated that it will carry a value of about a million dollars.

CAUGHT IN THE RAIN. When a cold and a cough—let it run on—get pneumonia or consumption that's all. No matter how you get your cold, don't neglect it—take Ballard's Horehound Syrup and you'll be cured in no time. The sure cure for coughs, colds, bronchitis and all pulmonary diseases in young and old. Sold by all druggists.

PAULHAN PLANS TO FLY OVER OCEAN

Daring French Aviator Says He Will Sail 30 Miles Over the Sea

(Continued From Page 1.)

Paulhan would make a flight with her husband added interest. The wind of the morning came from the north and was raw and cold, but too strong for safe flying. But as the day wore on, it veered to the east and lost its sharpness and strength.

Conditions for flying were again perfect by the time the machines and the men were groomed for the day's work. Repairs were completed during the night on the Gill-Dash, the Curtiss machine operated by Hamilton, and Paulhan's Farman machine, all of which met with slight accidents yesterday.

BALLOONS OUT OF IT. At 2 o'clock a sudden high wind destroyed hopes for a flight of the Hammon balloon and the rip cord was used to disintegrate the great ball while it tossed and pitched in the field.

TEN LAND BILLS ARE INTRODUCED

Senator Nelson Has Charge of Measures Relating to Conservation Work

WASHINGTON, Jan. 18.—Ten bills relating to the public land and conservation policies of President Taft and Secretary Ballinger were introduced today by Senator Nelson, chairman of the public lands committee. The measures are: A bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States; a bill to amend the act of March 3, 1879, relating to the public lands of the United States.

They are modifications of certain provisions of the former bill and it is said many of the objections raised against the bill have been eliminated. It is understood that Secretary Ballinger will withdraw the bill sent to the House committee on public lands, and will substitute those presented through Senator Nelson.

GOVERNORS OF THIRTY STATES IN CONFERENCE. WASHINGTON, Jan. 18.—Governors from thirty states gathered in Washington to discuss problems of state and of nations, opened their three-day session today. Governor Wilson of Kentucky, chairman of the committee on arrangements, presiding.

Governor Wilson declared in an address that in his opinion no better means of dealing with the problem of state and of nations could have been found than for the governors of the states to come together and with partisan feeling forgotten, talk over questions in which all are interested.

NEVADA CITY WANTS BETTER COUNTY ROADS. NEVADA CITY, Cal., Jan. 18.—The Chamber of Commerce last night launched a plan for the issuance of \$350,000 bonds for good roads in the county. Petitions will at once be circulated for signatures and requesting the supervisors to call a special election.

THANKS TRIBUNE FOR INFORMATION GIVEN AS TO PRICE OF COAL. Editor TRIBUNE: At a meeting of the Executive Committee of the American Railway Employees & Investors Association held on Monday, January 10th a vote of thanks was passed to your paper for the interest taken in the matter of our article which appeared in your paper of recent date, relative to the price of coal, and we wish to heartily thank you therefore for the courtesy shown us by extending us the publicity, which we could only obtain through your columns. Yours truly, P. S. GILLETTE, Pres. B. BRECK, Sec. Oakland, Cal., Jan. 15, 1910.

THREATEN TO BLOW UP JUDGE WALTON

Writers Who Claim to Have Been Sentenced to Jail By Him Give a Warning

FRESNO, Cal., Jan. 18.—Judge Walton of San Jose received a letter from seven unknown men, informing him that he would be blown to death unless he leaves town. The writers of the threatening missive say that he sentenced them to jail and that they will have to suffer the consequences if he persists in staying in town.

Judge Walton says he will not be frightened into leaving and has placed the matter in the hands of the officers who are investigating the matter.

PAYNE-ALDRICH BILL TO BE LAW AFTER MARCH. WASHINGTON, Jan. 18.—The maximum list under the Payne-Aldrich bill will go into operation at 12 o'clock midnight on March 31, next.

The advantageous position of Italy as to all countries entitled to the minimum rates is manifest as she is regarded as in a position to strike a hard blow to Germany and French trade with the United States, should they not so amend their tariff laws and regulations as to place them in the same position as Italy and other countries entitled to the minimum rates of duty.

CARPENTER FALLS 30 FEET. George B. Parker, the carpenter, living at 113 East Fifth street, fell from the scaffold at the new hospital in Alameda, a distance of thirty feet, sustaining internal injuries from which he will probably die. Parker was just out from recovering from an operation for appendicitis. He is a member of the Berkeley Lodge of Elks.

SICK HEADACHE. Positively cured by Little Liver Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Bile, Biliousness, Headache, Dizziness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER, etc. Sold by all druggists.

Small Pill. Small Dose. Small Price. Genuine Must Bear Fac-Simile Signature. REFUSE SUBSTITUTES.

MEETS TRAGIC DEATH BEFORE LARGE CROWD. SAN FRANCISCO, Jan. 18.—Gustave Falk, of 1573 Fairfield street, South Berkeley, was almost instantly killed by falling from the top of a pile driver before the pile was driven into the ground on the ferry boats late this morning.

Convulsed with a paralytic stroke, Falk lost his position and with a shriek to the piles below. He was picked up unconscious and died two minutes after being placed on the operating table at the Harbor Hospital.

Rev. J. W. Williams Testifies. Rev. J. W. Williams, Huntington, W. Va., writes us as follows: "This is to certify that I used Foley's Kidney Remedy for a year or two in rheumatism and trouble and am free to say that Foley's Kidney Remedy will do all that you claim for it." Sold by Wishart's drug store, corner Tenth and Washington.

A TRAVELING SALESMAN. H. F. Beers, 617 7th ave., Peoria, Ill., writes: "I have been troubled for some time with kidney trouble, so severely that I could scarcely carry my grip. After using one bottle of Foley's Kidney Pills I have been entirely relieved, and cheerfully recommend them to all." Foley's Kidney Pills are healing and antiseptic and will restore health and strength. Sold by Wishart's drug store, corner Tenth and Washington.

NEW COMET IS BRILLIANT OBJECT

Celestial Visitor Is Visible at Noon to the Naked Eye

CAN BE SEEN WHEN THE SUN SINKS DOWN

Will Loom to the Southwest as Soon as the Dusk Descends

SAN JOSE, Cal., Jan. 18.—Astronomer R. G. Aiken of the Lick Observatory this afternoon gave the following statement for the Associated Press: "The comet discovered in South Africa a day or two ago is brighter than the planet Venus. It was easily seen at the Lick Observatory at noon today with the naked eye. It was about four degrees east of the sun and one half of a degree north of it, and was moving toward the northwestern sky immediately after sunset. 'In a clear sky it should be a brilliant object for the next few evenings and should be looked for in the southwestern sky immediately after sunset. 'Bright observations today by Astronomer Wright show that the spectrum of the comet's nucleus is continuous, crossed by bright sodium lines extending into the violet.'"

BERKELEYAN IS CALLED BY DEATH

C. L. Hedemark, Pioneer Real Estate Man, Dies After a Year's Illness

BERKELEY, Jan. 18.—After a year's illness C. L. Hedemark, one of the most prominent business men in South Berkeley, died at his home, 202 Harper street, this morning at the age of 49 years. Hedemark, who was an old railroad man, came to Berkeley seven years ago, and since then had been active in business and political circles, there being talk of his running for the office of city clerk. For the last four years he had maintained a real estate office at 220 Adelaide street and owned extensive interests throughout the city.

Hedemark was a native of this state, and was well known in fraternal circles. He was a member of the Berkeley lodge of Elks, the Scottish Rite, the Knights Templar, the Royal Arch and the Odd Fellows. He was also a member of the Berkeley lodge of the Eastern Star in Oakland, as well as Berkeley lodge of the Woodmen of the World.

He is survived by a widow and three children, Edith, A. G., and Elmer L. Hedemark, of this city. The funeral will be held Thursday afternoon from the Oakland Masonic Temple, under the auspices of the Live Oak lodge of Masons and the Berkeley lodge of Elks. Interment will take place in Sunset View Cemetery.

CONVICTED BURGLAR IS SEEKING A NEW TRIAL. Henry J. Lewis, convicted of burglarizing the home of Dr. James Fer Don, has filed a motion in the criminal department of the Superior Court for a new trial, on the grounds that the court committed error in its instructions to the jury and newly discovered evidence of importance to the defendant. The motion has been set for Friday for hearing, and the case of Anna Feleagal, charged with complicity in the crime, will be called at the same time to be set for trial.

RAILROADS MAY REACH AGREEMENT WITH UNION. WASHINGTON, Jan. 18.—A conclusion of the mediation proceedings between Western railroad officials and their switchmen is likely to be reached within the next two or three hours. What that conclusion may be is yet problematical.

There are coats for all occasions, auto, street wear or dress.

\$9.75, \$12.75, \$18.75, \$22.50 and \$29.75

Extra alteration charges

Sale Held Second Floor Market St.

Every Woman's Winter Tailored Suit in Stock

Probably it is because The Emporium always gives San Francisco's best money's worth at the regular prices that these sale prices offer such phenomenal values.

The Emporium can state, and not without a particle of exaggeration, that the sale prices are a half and less than a half the regular prices, which means immense savings to the purchaser. Every fall and winter suit in stock at one of these four prices.

\$9.75, \$14.75, \$19.75 and \$24.75

Extra alteration charges

To Those Who Are Interested in Aeronautics

the exhibition at The Emporium of the heavier than air type of flying machines is both interesting and instructive. Bring the boys to see it. It is the wonder of the age and there is no telling what developments two or three years may bring.

The real Farman Aeroplane exhibited in the Emporium Dome is a replica of the famous machine which broke the record at Rheims, France, and was sailed by both the famous Farman himself and Paulhan, now winning such records at Los Angeles in the Aviation Meet there. The model is 30 feet from wing to tip and has been used in several Aviation Meets and given most wonderfully successful flights. Mon. Lawrence Dare, the Aviator, will gladly answer any desired questions and lecture on the known and unknown about Airships.

This is purely educational and of vivid interest. Best seen from 2nd floor.

Linens at White Sale Prices The Year's Best Bargains

something that most women take on its reputation. Emporium linen has a reputation. Every woman who has ever bought table linen at The Emporium knows that it will launder well, iron up smooth and white and give ultimate satisfaction and service.

LICENSE INSPECTOR LEARNS SOMETHING

That Some Second Hand Dealers Are Acting as Pawnbrokers Under Small License

A case came up in the Police Court this morning which promises to make lively times for second hand dealers who are in reality doing business as pawnbrokers. It served to open the eyes of License Inspector W. A. J. to the fact that the city is full of dealers out of honest trade who are using clever methods of the kind which only a license or \$12 a year can give them. It should pay \$7.

It was through the arrest of Edward Edwards for getting into the city hall and the case came to light. Edwards is charged by Herman M. V. with holding a pawn license which he borrowed \$3 when he was arrested. It is said that he had gone into the city hall to get a medal and was caught by the police. The police found him with a license which he had borrowed from a pawnbroker. The police found him with a license which he had borrowed from a pawnbroker. The police found him with a license which he had borrowed from a pawnbroker.

Buenos Ayres Will Have Two War Vessels

Buenos Ayres, Jan. 18.—The Argentine navy is to be strengthened by the construction of two dreadnought battleships of 25,000 tons. The ships will be built at the Argentine shipyard. The ships will be built at the Argentine shipyard. The ships will be built at the Argentine shipyard.

WANT LAWS TO BLOT OUT EVIL

Civic Federation Talks of Uniform Legislation for Immoral Traffic

WASHINGTON, Jan. 18.—Numerous were the subjects on which uniform state legislation was recommended by the speakers at today's conference of the National Civic Federation. The delegates urged a permanent commission to study and report on the subject of immoral traffic. They also urged a permanent commission to study and report on the subject of immoral traffic. They also urged a permanent commission to study and report on the subject of immoral traffic.

THREE DIVORCE SUITS ARE FILED IN COURT

Divorce suits were filed in the Superior Court today as follows: Fred Gould against Adeline M. Gould; Fred Gould against Adeline M. Gould; Fred Gould against Adeline M. Gould.

BRIDE PLEADED TO GET HUBBY FREE

It Was Like a Play, This Police Court Happening, Taken Right Off the Stage

Drama in real life based upon Eugene Walter's play. Paid in Full was presented in the police court this morning when the pretty little bride of Morris Packer pleaded with the judge to let her husband go. The judge, however, refused to do so. The judge, however, refused to do so. The judge, however, refused to do so.

Williams Cleared of The Larceny Charge

Superior Judge Ogden this morning dismissed the case against Harry Williams in which he was accused of grand larceny. Williams was charged with stealing a car. Williams was charged with stealing a car. Williams was charged with stealing a car.

TARPLEY CONTINUES HIS LAND STORY

Told How He Obtained Advance Information Regarding Forest Reserve

PORTLAND, Ore., Jan. 18.—I offered to pay \$500,000 for 50 cents an acre on the school land we secured, which would be about \$500,000 but he replied that this would not begin to be enough to pay the fellows in Washington. I was told that this would not begin to be enough to pay the fellows in Washington. I was told that this would not begin to be enough to pay the fellows in Washington.

Passenger Train's Ditched by Washout

VANCOUVER, Wash., Jan. 18.—Passenger train No. 3, enroute on the Spokane, Portland and Seattle railroad ran into a washout early today near Marlin. The engine and baggage car ran into the ditch and it is reported that Engineer George Koonitz was killed and two men seriously injured. None of the passengers were hurt.

SANE, BUT HELD AT THE ASYLUM

Mrs. Chloe Tilton Waiting for the Recovery of Guardian

SAN FRANCISCO, Jan. 18.—Although pronounced sane and possessed of enough property to keep her in plenty for the remainder of her life, Mrs. Chloe Tilton cannot leave the institution because all trace of her guardian has been lost. This was the substance of a complaint filed today in the Superior Court here by Louis Hummersmith, who petitioned to have Mrs. Tilton removed as guardian of Mrs. Tilton. The papers in the case were filed today in the Superior Court here by Louis Hummersmith, who petitioned to have Mrs. Tilton removed as guardian of Mrs. Tilton.

HURLED FROM BUGGY; IS SERIOUSLY HURT

ALAMEDA, Jan. 18.—Mrs. Emily Funke, former proprietress of an institution for homeless children in the west, who left here for Santa Rosa last week, was seriously injured in a runaway accident, and her friends are alarmed over her condition. Her right arm and collar bone were broken when she was thrown out of a buggy. The shock resulting from the accident has made her condition more serious than was at first expected. After selling her property to the Southern Pacific company for the right of way for the new electric system Mrs. Funke went to Santa Rosa. She was driving through the city several days after her arrival there. The shock came from a train which Mrs. Funke was thrown out of. She packed up her property and took a nearby druggist's wagon to the hospital. She is now confined to a bed.

PILES Quickly Cured

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.

We want every man and woman suffering from the excruciating torture of piles to just send their name and address to us and get by return mail a free trial package of the most effective and positive cure ever known for this disease. Pyramid Pile Cure.

Mrs. Harriman's Gift to New York.

Recently, Mrs. Harriman, the widow of the late railroad magnate, E. H. Harriman, made a gift to New York and New Jersey of 10,000 acres of land following the banks of the Hudson river and a stretch of fifteen miles of the famous Palisades, for public park purposes. The gift was in accordance with a desire expressed by Mr. Harriman. The Springfield Republican says it has been supplemented by gifts from other large capitalists, making up two and a half millions of dollars; and the state is expected to back the project by an appropriation of equal amount, as recommended to the Legislature. It is described as the greatest park in the United States, except a few government reservations, if such may be styled parks. The park has not yet been delimited, but will be later.

According to the statement published by the Republican, the gift of 10,000 acres by Mrs. Harriman is but a small part of the great territory owned by Harriman, stretching back from the Hudson river through Orange and Rockland Counties. The other 15,000 acres which remain to be added are yet to be obtained by purchase through individual subscription, and the work of completing the scheme has been undertaken by George W. Perkins, long a rival when he was not a partner of Mr. Harriman. Mr. Perkins was one of the chief organizers of the great Palisades park, and that will be joined with these later purchases and the Harriman gift to make a vast park of 25,000 acres. In all probability this magnificent public reservation will be named the "Harriman State Park" to be retained as a perpetual memorial of the man who had planned when living to make the gift, but death cut short his career before he could carry out his intentions.

British Liberals Win.

Practically the composition of the next British House of Commons was determined at yesterday's elections when it was made clear that there would be no landslide such as the Conservative-Unionists had hoped and worked and intrigued to bring about. It is now a settled fact that the Asquith-Lloyd George ministry will retain control of the reins of government with a good working majority. The latter will not be as big as it was in the last parliament, but it is big enough to insure the passage of all the bills the government will introduce to carry out its policies. The general results yesterday were, indeed, much less satisfactory to the opponents of the government than those of Saturday, for with a much greater number of constituencies voting, the net Conservative-Unionist gain of seats was smaller. The best they have been able to do, in fact, is to reduce the Liberal and Laborite majorities of the landslide of 1906. The great bulk of those constituencies yet to vote up to the close of the elections are positively certain to return Liberal, Laborite and Nationalist representatives to the Commons.

The general election has put the seal of popular approval on the budget, which the Lords refused to pass without being referred to the country. The referendum has been made and the voice of the people heard. The upper house will now be compelled to pass the measure which carries innovations in the system of taxation and makes a more equitable distribution of the burden of taxation for the raising of public revenues. The chief features of the budget may be thus summarized:

Revision of the income tax, on the basis that the larger the income the heavier the tax, and a super-tax on unearned incomes, to-wit: rents and leases.

Brewers and publicans must pay higher licenses.

Death duties on estates graded on a rising scale.

Heavier tax on spirits and raw tobacco.

Increased inheritance tax.

Stamp tax on bond, stocks and property transfers.

Increased taxes on motor cars and petrol, the income to be turned into the national fund for highway improvements.

Reduction of amount allotted to the national debt redemption fund.

Taxation on the unearned increment of urban land; a special tax on the capital value of unimproved land, and a tax of 10 per cent reversion duty on any benefit accruing to a lessor through the expiration of a leasehold.

Having invoked the referendum the Lords must now take their medicine by hereafter paying large tribute to the public treasury and submitting to be shorn absolutely of the veto power over any measure affecting the national finances.

A Los Angeles dispatch announces the resignation of Postmaster Mobley Flint. The announcement has taken the Southern California metropolis by surprise, as he has made such an efficient public officer that his name had been mentioned as a possible candidate for the governorship. Mr. Flint has, however, declared his intentions to retire permanently from the political arena, as he has the commendable ambition to shine in another field. When he surrenders the Los Angeles postmaster's office he intends to go into the banking business. He will carry with him, undoubtedly, the best wishes of his fellow townsmen and friends everywhere in the State for substantial success in the financial world.

Privileged Class Game Laws.

Commenting on the hunting license law put into operation in the State of Massachusetts in January 1, 1909, the Springfield Republican says 2,800 permits were issued, from which a revenue of \$28,445 was derived, and it felicitates the state on deriving this revenue and on the representation made that the operation of the law has helped to check the wholesale slaughter of game.

All of this is probably true; but the main and more important fact, in which the non-hunting portion of the people of the commonwealth is directly interested, is overlooked, namely, that the checking of the slaughter of game animals has deprived them, as it has deprived the non-hunting people of this state, of the privilege of obtaining game in season by purchase at the market stalls. And yet the courts have uniformly decided that wild game is the property of the people at large.

In the densely populated State of Massachusetts, through the operation of the hunting license law, the whole people's interests in the wild game has been conserved for the privileged 2800 who have taken out hunting licenses. The remainder of the population, having no inclination to hunt, even if it had the time and the opportunity, is shut out from the privilege of buying wild game from those who slaughter for the love of "the sport, or as a means of earning a livelihood. The State of Massachusetts, however, gets the revenue derived from the licenses.

But in this State over \$150,000 a year is paid annually for gun licenses to shoot game, and not a dollar of it has passed into the State treasury, while the great mass of the people, who do not have the inclination or the time or the capacity to hunt, are not given the privilege of buying game which may be slaughtered by others in excess of their own necessities. Moreover, it was demonstrated at a recent Elks banquet given at Vallejo that the law limiting the right of possession of wild duck was openly violated and winked at by the men who are employed by the State, through the Fish and Game Commission, to see that the game laws are respected. Sooner or later there will be a popular awakening and an open and effective revolt against the abuses committed under the cover of statutes framed and executed solely for the benefit of a privileged class.

Pinchot's Successor.

If the Chicago Post's estimate of Professor Henry S. Graves, who has been appointed Chief Forester to succeed Pinchot, is a correct one neither the Forestry Bureau nor the public interests in the forest reserves will run any risk of suffering through the change. The Post says:

"The man chosen to succeed Gifford Pinchot as Chief Forester of the United States is a copper-riveted, fire-bricked guaranty of President Taft's fundamental sincerity upon the great issue of conservation of natural resources. Professor Henry S. Graves is as Pinchot's other self. Pinchot is the first student of the science of forestry that this country has known; Graves is the second. The two men knew each other at Yale, they worked together upon the Biltmore estate—Pinchot's first big job—they wrote books together, they entered the government service together, and together they built up the Yale Forestry School, probably the best institution of the kind in the United States."

With all these qualifications it is to be presumed that Professor Graves will exercise better judgment and more discretion than his old college chum and official predecessor and thus avoid placing himself in a position of antagonism and insubordination to the administration and its policy of the conservation of the natural resources of the nation.

The year 1910 has opened auspiciously for Oakland and the real estate market is again active.

Canada is to have a navy after all, Premier Laurier at the opening of the Dominion Parliament last Wednesday announcing the intention of the government to build eleven warships at a cost of \$15,000,000, create a permanent naval force and an advisory naval board, the fleet to be under Dominion control and available in time of "war, invasion or insurrection, real or apprehended." It will cost \$3,000,000 annually to maintain it. As it will be placed under the direction of the department of marine and fisheries, the purpose is evidently to employ the ships during times of peace in patrolling the fishing grounds in Canadian waters.

That Oakland's business is moving steadily up-grade is shown by the records of the Oakland Clearing-house reports.

The recent report of the weather bureau chief that at an elevation of six miles above the earth there is a warm stratum of air and beyond that there is no temperature and all is darkness is not in keeping with the experiments made by French scientists about ten or twelve years ago when a fleet of balloons carrying self-registering instruments testing light and temperature were released at Versailles and before reaching earth again in Belgium ascended thirteen miles high and all registered a uniform temperature of 37 degrees Fahrenheit night and day in the highest altitude reached, proving conclusively that at double the height reached by the weather bureau's self-registering balloons there is an atmosphere of constant unvarying temperature of 37 degrees throughout the twenty-four hours.

When money talks everybody stops to listen.

WATERFRONT IMPROVEMENT INCITES TALK IN COUNCIL

Twenty-Eight Thousand Dollars as Limit Set Upon Sewering in Certain Sections of Oakland

Country Club to be exempt from the liquor license law. Granting permission to obtain liquor license by the City Council, No. 423, Eleventh street, and H. Hanson and J. Keough, No. 728 San Pablo avenue. Granting forty-seven applications for permission to obtain liquor license to conduct saloon or liquor stores in the annexed district, and that the license be granted to the applicant upon the approval of the ordinance now in print amending the liquor license ordinance No. 1, 1910, to date from January 1, 1910. Granting Otto Schwarz permission to withdraw his application to obtain a liquor license for No. 3177 Hopkins street. Directing the chief of police to enforce the liquor license ordinance in the annexed district, and to instruct police officers in that district to notify all saloonkeepers that they must comply with all the city ordinances now in effect in the city of Oakland.

ORDINANCES TO PRINT. Upon the recommendation of the Ordinance and Judiciary Committee, the following ordinances were adopted: Ordinance No. 2345, relating to licensing of plumbers and to amend Ordinance No. 2344, relating to licensing of plumbers and to amend Ordinance No. 2343, relating to licensing of plumbers and to amend Ordinance No. 2342, relating to licensing of plumbers and to amend Ordinance No. 2341, relating FOOD IS TOO HIGH, SAYS CARDINAL GIBBONS

Necessaries of Life Have Advanced, But Wages Remains Same

CANNOT PLACE BLAME FOR INCREASED COST

Economic Conditions of Country Wrong, He Says, and People Must Protest

WASHINGTON, Jan. 18.—Cardinal Gibbons has added his powerful voice to the protest against the increased cost of living, which he declares is "clearly out of all reason."

In an interview here yesterday his conclusion was:

"Something must be wrong with economic conditions in the country when wages and salaries remain the same when at the same time food supplies continue to increase in price."

"I feel," continued the Cardinal, "that something ought to be done to correct this evil. I myself have felt the weight of the high prices of the necessities of life."

Asked to what he attributed the prevailing high prices, Cardinal Gibbons replied:

"Though I have recently felt the results of the present high prices of living, yet I have been unable to analyze the causes. For a long time I have noticed that prices of supplies of all kinds seemed gradually to be getting higher and higher, but while I have thought over the matter, I do not know what has caused the advance in prices. On one thing I am certain, prices of necessities have not kept pace with wages, that is, wages have not increased in proportion to the increased cost of living."

SOMETHING RADICALLY WRONG

"Something must be wrong with economic conditions in the country when wages and salaries remain the same when at the same time food supplies continue to increase in price."

It was suggested to his eminence that the trusts might be responsible for the evil complained of.

"As to that I am not prepared to say," replied the Cardinal. "Something evidently is wrong when many of the commonest necessities in food are priced at such enormous figures."

The attention of the Cardinal was called to the launching of the Anti-Food Trust League in this city on Saturday night and the national boycott plans of the organization were explained to him. He said:

"I have not gone far enough into the subject to express an opinion on the new organization, but something of the kind, it seems to me, would have the result that the consumers are seeking to accomplish."

PEOPLE MUST PROTEST.

"Most of the prices for food products are clearly out of all reason, and one thing is certain, the people cannot go on paying such prices when they are not earning any more money."

"You can say for me that I heartily endorse any movement which will tend to reduce the cost of living for the masses of the people of this country. There is no doubt that some kind of corrective steps will have to be taken in regard to the present high price of living."

It was also suggested to the cardinal that the tariff might be playing some part in the horizontal rise in prices.

"We have not had time to study the cardinal, 'fully to judge of the operations of the new tariff and I could not say now if the tariff has anything to do with it or not. It may have. We will be able to judge more correctly after we have seen its workings more fully."

"Of this I am sure, however, something must be done soon to put the prices of food on a reasonable basis and any method which will bring this about I endorse."

The cardinal, branching from the question of the cost of living, made some significant remarks with regard to the efforts of reformers to accomplish their ends through conventions.

"Such conventions may accomplish a certain amount of good, but there are other and better methods," said he, "I am not a believer in the efficiency of big public conventions to effect reforms. Work of that kind requires something more than speeches and the gathering of large bodies of men. The heart and confidence of the people at large must be attracted by the church before any real abuses can be corrected."

"The movement of the National Civic Federation this week and the conference of governors is a different matter and should result in movements for good."

"Such movements cannot but be of the greatest benefit to the country, and I thoroughly endorse such movements."

The cardinal, alluding to the work on the next conference, "The Catholic Church," he said, "is making great strides everywhere and nowhere more than in America."

GERMANY NOT TO ACCEDE TO TARIFF REQUESTS

American Wishes Concerning Importation of Meat Will Not Be Met

TRADE HOSTILITIES MAY BE THE RESULT

Country Steadfast in Its Position and Will "Take Whatever Comes"

BERLIN, Jan. 18.—The German government today cabled to Washington a reply to a memorandum recently received from the United States in relation to the tariff on shipments between the two countries. While it does not accept the American wishes in various respects, and especially concerning the importation of meat, the German response is sent in the hope that it will be satisfactory as all that the German government can do.

The reply was dispatched with a feeling of gravity because of the belief that Germany can do more and must be prepared for trade hostilities should the United States, unhappily, insist on more than German accords to other countries.

WOULD BLOCK WAY.

Chancellor von Bethmann-Hollweg and his associates, the imperial ministers, appear convinced that the combined Conservative Center and National and Liberal parties of the Reichstag would block the way to any departure from the present laws covering the importation of meats.

The government has received the opinions of leaders of the party, and, moreover, has gathered widely the views of manufacturing interests. Even with the government disposed to accept the American contentions in their entirety, there does not appear to be the least possibility that the Reichstag would pass the legislation essential for the modification of the German law.

TAKE WHATEVER COMES.

It is cited at this time that in promulgating the American-German tariff agreement, in 1907, President Roosevelt stated that Germany was giving to the United States more than she was receiving.

It is further pointed out that now the American tariff revision having been made, as is constantly asserted in all quarters, with the design of limiting German trade with the United States, and requesting being made that Germany shall make further trade concessions, the general temper of the country, as indicated by the chambers of commerce, the Reichstag, financial journals and the government, is one of inquiry and dissatisfaction in what is considered a sound position—namely, to take whatever comes.

San Francisco Society

SAN FRANCISCO, Jan. 18.—The Misses Helen and Bessie Ashton, who have been much feted since their return from abroad, were hostesses this afternoon at an informal card party, this being the first of a series that they contemplate giving.

A charming coterie of friends were in attendance, among whom were Miss Claire Nichols, Miss Julia Langhorne, Miss Louise Foster, Miss Sara Coffin, Miss Helen Jones, Miss Marie Brewer and Miss Martha Foster.

Miss Gertrude Perry, one of last winter's most popular bachelors, entertained sixty of the younger set at an elaborate tea this afternoon in the gray room of the Fairmont Hotel.

Miss Perry was assisted in receiving her guests by her mother, Mrs. Everett Perry, Miss Ruth Richards, Miss Dorothy Chapman, Miss Augusta Fouts and Miss Dorothy Baker.

Men as well as girls dropped in to greet the hostess and her friends, who were the complimented guest of the occasion.

Mrs. Schlitzke is planning to give a large tea at her California street home next Tuesday afternoon in honor of her daughter, Mrs. Frederick G. Kelland, Miss George F. Noel and Mrs. Russell Schlitzke.

Mrs. Kelland, who was Katherine Schlitzke, recently returned from the East and was the matron of honor at the Milton-Neel wedding.

Mr. and Mrs. John Millard expect to return in a few weeks from Mexico, where they are visiting relatives.

Miss Madge Raymond is visiting from her home in Oroville and is the house guest of Mr. and Mrs. William Gump.

Rev. Dr. F. W. Clappett and Mrs. Clappett will be "at home" to their many friends on Friday, January 21, at their residence on Pacific avenue, between the hours of 4 and 7.

This reception is given to commemorate Dr. Clappett's tenth anniversary as rector of Trinity Church.

Mr. and Mrs. Louis Neustrader are among the many who are enjoying a few weeks of the midwinter in Santa Barbara.

Mr. and Mrs. M. H. de Young will entertain at a large dance this evening at their California street home.

Mrs. George Cameron, Mrs. Joseph Tobin and Miss Kathleen de Young will assist their mother in receiving her guests.

A collation is to be danced before supper, and there is therefore an unusual amount of pleasantly anticipation connected with the affair.

Mrs. James Ellis Tucker's musical tea, given yesterday afternoon in honor of Mr. Francis Rogers and Mr. Frank La Forge, was one of the most enjoyable events of the season.

Mr. Rogers and Mr. La Forge have shared the honors with Mrs. Somberlin at all her concerts.

Mrs. Alfred Newman was hostess at a tea given in honor of the members of the Beta Phi Sigma Sorority last Saturday at her home on Clay street.

CONSPIRACY TO CONTROL COUNTY IS CHARGED

Assessor of Del Norte Makes Sensational Allegations in Suit

SUPERIOR JUDGE AND OFFICIALS ARE NAMED

Alleged Plot to Form Political Machine Is Basis of Action

SAN FRANCISCO, Jan. 18.—As the result of the filing of an action by W. P. Maloney, Assessor of Del Norte county, a number of officials, including a judge of the superior bench, are accused of the manipulation of their offices to suit themselves and of entering into a conspiracy to build up a political machine.

The complaint is preferred against Judge John L. Childs, District Attorney George W. Howe, Auditor M. C. McWay and O. R. Lauff, a citizen.

ALLEGES INTRIGUE.

According to Maloney, who claims that Judge Childs misused his judicial powers, that jurist entered into an agreement with District Attorney Howe to build up a political machine for the control of the county offices and when Maloney would not enter into the scheme he avers he was threatened with a grand jury investigation.

On February 6, 1903, he asserts, Judge Childs convened the grand jury and ordered an investigation of Maloney's action. He avers that J. P. Barney was called upon to testify and occupied the stand a whole day, handing in a bill for his services of \$82.50. Here, according to the complaint, the tax payers arose in revolt and intervened on the ground that the affair was fraudulent and that the District Attorney, after sending the bill to the Attorney General for indorsement, hastily recalled it and passed it to Childs, who, he says, ordered it paid.

SUES FOR CLAIM.

On this alleged guarantee of Judge Childs the claim was purchased by O. B. Lauff, who brought suit in the justice's court to recover the amount. This action, according to Maloney, the District Attorney allowed to go by default and then appealed to the Superior Court, presided over by Judge Childs and again allowed it to go by default. Now Maloney wants Auditor McWay restrained from auditing and the Treasurer prevented from paying the bill, which he claims should be made null and void.

Sailors Are Killed By Haytian Police

PORT AU PRINCE, Hayti, Jan. 18.—The public has been aroused by the summary execution of two sailors accused of having stolen merchandise from the wharves. Upon detection General Ferdinand, captain of the port, arrested the sailors, who were immediately shot.

It is said the prisoners were given no opportunity to explain or confess. General Ferdinand was arrested today on the order of the Minister of War.

Make Second Protest Against the Removal

SAN FRANCISCO, Jan. 18.—The Chinese Six Companies of this city and the Chamber of Commerce of the Chinese quarter have formulated a second protest against the removal of the local immigration station to Angel Island. The resolutions will be sent to the Secretary of Commerce, through the Chinese Minister at Washington.

CHICAGO BANKER DIES OF HEART FAILURE

CHICAGO, Jan. 18.—John Farson, banker, lawyer and clubman, and one of the best-known figures in the financial and social world of Chicago, died this morning at 3:45 as the result of an attack of heart failure.

Farson was the head of the banking firm of Farson, Son & Co. His eldest son, John Farson, Jr., who is in charge of the New York branch, reached here on special train before his death. Farson was born in Union City, Indiana, October 5, 1855.

Continual Headache

May lead to serious troubles. Coffee causes headache. And various ailments.

In many persons who Don't understand the cause. Try leaving off coffee 10 days and use well-made

POSTUM

As the regular table beverage. It contains no drugs. Like caffeine found in coffee, Nor other harmful substance.

POSTUM is made of Clean roasted wheat and a Small amount of molasses, And while it tastes Similar to mild, high-grade coffee It is a pure food drink.

Served piping hot with Good cream, it's delicious.

FATHER KILLS HIMSELF AS FAMILY CHATS

Lumber Man Fires Bullet Into His Brain Because of Ill Health

WELL KNOWN BUSINESS MAN ENDS HIS LIFE

Son Hears Shot, Rushes Upstairs and Finds Father Dead

SAN FRANCISCO, Jan. 18.—After chatting with his wife, son and daughter in the parlor while the little family was still talking together in joyous tones, Walter Dickens, 55 years old, president of the Dickens Lumber Company, fired a bullet into his brain at his residence, 1557 McAllister street.

Despondency, caused by continued ill health, which had caused the well-known business man to brood, he said to be responsible for his act. With his wife and his son, T. T. Dickens, and his daughter, Dorothy Dickens, prominent in the younger set, he had been talking over family matters after breakfast and had left them for a moment.

They heard him enter the bathroom and the next instant were horrified at the sound of a shot, followed by a heavy fall. With a scream Mrs. Dickens fell prostrate to the floor, while the son rushed upstairs to discover the dead body of his father with a pistol by his side. The bullet had gone through the head, penetrating the brain, and death had been almost instantaneous.

NEW EXPLOSIVE CO. IS NOW INCORPORATED

The Pacific Steeltite Company, of which Moritz Stach von Goltzheim is president, with offices in San Francisco, and which has a capital stock of \$500,000, will establish a large factory at Milpitas, on the corner of Bay avenue and Clark street, for the purpose of manufacturing one of the ingredients that enter into the composition of Steeltite powder. This product is itself non-explosive and is only a minor portion of the finished Steeltite.

The heavy stockholders are Anderson, Kirk, Joseph Starck, George Geopert and M. T. Stach von Goltzheim. Steeltite derives its name from Edward Steele, the inventor of this new chlorate powder, which has been demonstrated to be among the most effective of the safety powders.

HARRY BROWN GUILTY OF ASSAULT ON SAUFFLEY

Harry Brown was found guilty by a jury in police court yesterday of assault upon J. M. Sauffley. This is one branch of the Sauffley case which has held the police court for the past two weeks. The main feature is yet to be tried in which the elder Brown is accused of breaking into Sauffley's arm during a neighborhood quarrel.

WALKER RIVER RIGHTS INVOLVED

Argument Begins in Supreme Court in Original Miller & Lux Suit

WASHINGTON, Jan. 18.—A controversy between citizens of the states of California and Nevada, involving the right to use for irrigation and other purposes the waters of the Walker river, which flow in both states, and attacking the jurisdiction of the United States Circuit Court in Nevada to interfere in the title rights to lands in California, was argued in the Supreme Court of the United States today.

The case was originally entitled: "Miller & Lux vs. Thomas P. Riekey." The plaintiffs own about 23,000 acres of land in Nevada, lying along the Walker river, and the defendant, Riekey, and associates, hold title to about 40,000 acres located in California along the headwaters of the same river and above the Miller and Lux property.

ORIGIN OF ACTION.

Miller and Lux began the original action in the United States Circuit Court in Nevada in 1902, to restrain the Riekey interest from using the waters of the Walker river in California, which they alleged deprived them of their supply in Nevada. Riekey pleaded lack of jurisdiction on the part of the court, but Judge Hawley of the United States Circuit Court of Nevada held that he had a right to regulate the titles to land in California. The defendant then brought suit in the Superior Court of Mono County, California, against Miller and Lux to quiet title to the California land.

Judge Hawley, upon application of Miller & Lux, enjoined this action on the ground of an invasion of the jurisdiction of the Federal court. The Circuit Court of Appeals at San Francisco sustained the injunction, and the case reached the United States Supreme Court on appeal of the Nevada parties from that affirmation.

A SIMILAR CASE.

The case is similar to that where the waters of the Arkansas river were in dispute between the citizens of Kansas and Colorado some years ago and which was decided finally in favor of Colorado. The decision in that case, however, was founded upon the presumption that the people of Colorado would be more seriously damaged by a decision against them than would the people of Kansas.

In the present case the court is expected to decide the ownership of the waters of a river running through two or more states and also the question whether the courts of one state have a right to render decisions affecting the titles to land lying within another state.

OLD QUESTION INVOLVED.

Charles C. Boynton, attorney for the Riekey interest, denied this right in his argument today. He declared that the old question of state rights was again involved in this case. If the precedent were established in this case, he asserted, the courts of Louisiana or of any other state lying along the lower parts of the Mississippi river, might assume to regulate the titles of land lying as far away as the banks of the Missouri river in Montana. Even the courts of Canada, he said, might assert their right to take cognizance of the conditions in the United States affecting land lying along streams which flow across the borders of the two countries.

What a woman hates about being dressed so her legs won't chap is supposed anybody should guess.

MUGGING NOT TO LIKING OF PRETTY SENORA

Fought Whole Jail Force Hysterically and Yielded Only to Exhaustion

COUPLE ARE WANTED IN MEXICO AS ELOPERS

Prisoner Is Wife of Wealthy Mexican Who Became Infatuated With Cafe Singer

Jose Frances and Amelia Calderon are the true names of Joan De La Franconia and Amelia Fernandez, who were arrested in the Portola Cafe in San Francisco last night by the Federal authorities and wanted in the City of Mexico to answer to the charge of eloping. They were delivered at the county jail here this forenoon to be held until they can be taken back to Mexico, the government there having issued extradition papers for their return.

FAIR SENORA HYSTERICAL.

The couple were "mugged" by Chief Jailer White about noon. Frances entered no objection to having his photo taken for the "popper" gallery, but when the fair senora was told that she would have to go under the same ordeal she flew into hysterics and fought savagely against the whole jail staff. And she did not submit until she was totally exhausted and could not fight any more.

SINGING IN CAFE.

Frances and his affinity were singing at the Portola Cafe. He is a baritone of no mean ability and Senora Calderon also has a fine voice. When the Federal authorities swooped down upon the cafe to catch their birds they created a big sensation and threw the pleasant resort into a wild hubbub by taking La Estrella (the little star), the dancer, and her husband into custody by mistake. When their error was discovered they got wise to Frances and Senora Calderon and took them in. The latter has her four-year-old child with her.

WIFE OF WEALTHY MEXICAN.

Senora Calderon is the wife of a wealthy Spaniard, who resided in the City of Mexico. She first heard Frances sing there and it was a case of love at first sight. Frances went to New York and the Senora deserted her husband and followed him, taking her little daughter along. The couple came to San Francisco together and have been appearing in vaudeville there.

DENIES THAT RAILROAD HAS UNION AGREEMENT

ST. PAUL, Jan. 18.—Vice-President George T. Slade of the Northern Pacific Company today stated positively that his road had opened no negotiations with the Brotherhood of Railway Trainmen for a contract, as had been rumored.

Occasionally a girl discovers that the young man after her own heart isn't after it at all.

OFFERS \$5,000.00

Challenges Chicago Federation of Labor. When the average labor leader is criminal for the unfair, tyrannical, or criminal acts of his union, he does not usually hesitate to deny or willfully perjure.

One of his favorite methods is to twist and distort his public utterances to convey a wrong impression. People who have been deceived and know the opposite to be true, some who have not watched this tendency, give credence.

These men who have secured control of the unions fear and hate any writer or speaker who sees fit to tell the truth about the way workingmen and the public are treated by paid labor union managers.

One Fitzpatrick, president of the Chicago Federation of Labor, is said to have stated at a Sunday meeting the following: "During a recent freight wreck on a Baltimore & Ohio railroad near Pittsburg, three carloads of empty peanut shells were found at Battle Creek." He deliberately lied and knew at the time he made the statement that he lied. He cannot make the public believe that such people who have been deceived and know the opposite to be true, some who have not watched this tendency, give credence.

There is a time coming when the workingman will secure his rightful position and fair treatment with suitable wages without being compelled to work in this country under the control of the labor union. Some localities over the workingmen and can tell them when to quit work or be subject to the slugging of their infamous "entertainment committees."

Labor is too sure a part of the great world's work to be dominated by the vicious hate-producing, impudent, and criminal men too often found in the ranks of these so-called officers and managers.

The works of the great food factories in this country are open to visitors at all hours of the working day, and are visited by hundreds of thousands of people who inspect every kind of material used and all of the processes. The cleanliness of the Postum Cereal Co. Ltd., plant is proverbial the world over.

We have deposited in the Commercial National Bank of Chicago \$5000.00 to be covered by a like amount by the Chicago Federation of Labor. If the Federation of Labor can show that there were ever any peanut shells or trash of any kind shipped to and used by the Postum Cereal Co. Ltd., in their foods at any time in the history of its business, the Chicago Federation of Labor will take the \$5,000 otherwise it will come to us. The Chicago Federation of Labor will not cover this amount. They know, and the president knows, that when he made the statement he constructed it out of whole cloth and voiced a wilful falsehood.

CLAIMS HUSBAND
HAS AN AFFINITYSpouse Who Preferred Jail to
Home, Defendant in Action
for Divorce

ALAMEDA, Jan. 18.—That there is another woman in the case is one of the reasons Mrs. Mary E. Norden gives as the cause of her suit for divorce filed yesterday against her husband.

The divorce proceedings are the aftermath of years of quarrels and abuse according to the plaintiff who had her husband arrested a few weeks ago on a battery charge.

"He hit me over the head with a chair," said Mrs. Norden in court, and Police Judge R. B. Tappan convicted the accused husband, who will be sentenced Saturday.

Norden created quite a sensation in the police station a few days ago when he declined to appear before Judge Tappan.

"I would rather stay in the jail than go home to my wife," he told the police officials and his friends, and he remained in jail until the court, when the desire for freedom prompted him to accept bail.

The complaint on file by Mrs. Norden is fluent with charges of the use of profanity and curses, said to have been voiced by her husband when things did not go to his liking in their home at 1149 Clinton street.

Mrs. Norden says she is a widow when she married her present husband, who is a married man, and has only given him about \$100 worth of property, the sum of \$100 and this amount drawn forth from a bank, according to the plaintiff, who says on the grounds of extreme cruelty.

Mrs. Norden, who is about fifty-five years of age, says that she has an affinity with her husband, and that she could not sustain this statement.

The couple have one child, a son about seventeen years of age. Mrs. Norden has two children, a son and a daughter. She says that Norden would not allow these children to enter the house, and that she had to see them on the outside.

The complaint gives a number of instances of quarrels in which the plaintiff suffered at the hands of her husband, whom she says cost her numerically.

"My life with him has been one of profanity and cruelty," she says. "You dirty old low-down creature is one of the forms of language used to have been used by Norden to me."

Mrs. Norden wants a share of the property, which consists of their home on Clinton avenue.

Nurses and Guests at Banquet
Following Completion of CourseMISS MYRTLE PARSONS, the fourth graduate from the
Roosevelt Hospital, who finished her course Sunday evening.

BERKELEY, Jan. 18.—Following closely upon the graduation of Misses Velma and Vera Ives from the Roosevelt hospital, the finishing of the three-year course by Miss Myrtle Parsons, Sunday, and the occasion was made one of jubilation by the two score nurses still remaining in the institution.

The two Miss Ives and Miss Parsons were the guests of honor at a banquet

Miss Parsons, who is one of the most popular nurses that ever took a course in the Roosevelt hospital, was the recipient of a class pin which was presented by Miss Carthy, as spokesman.

The spread was served in the nurses' recreation hall and the room was handsomely decorated with evergreens and violets. Miss Parsons plans to remain in Berkeley, although her home is in the southern part of the State.

SCAFFOLD BREAKS;
PAINTERS INJUREDAt Work on Elks' Building in
Alameda When Hurlled
to Ground

ALAMEDA, Jan. 18.—Two painters, George W. Park and William Stone, are lying at the Emergency Hospital in a serious condition as the result of a fall from the Elks' club house, which is under construction on Santa Clara avenue.

The two men were standing on a scaffold which had been hoisted to the top of the building, when the ladder of the scaffold snapped in the center, and hurled them to the ground, a distance of thirty-five feet.

Dr. W. O. Smith, exalted ruler of the Elks, was on the scene and rushed to the side of the injured men. They were both unconscious.

Charles Neal, Bert Powell, the builder of the club house, A. C. Toye, the painter, and Herman Unna, all prominent Elks, were standing in a group below the scaffold when the accident occurred. The men all lent their assistance, and the two painters were placed on boards and moved into the Emergency Hospital, which adjoins the club house.

Three physicians, Dr. W. O. Smith, Dr. W. S. Statham, and Dr. J. H. Smith, worked over them. Parker's injuries are mostly internal and he is in a grave condition. He is only convalescing from an operation for appendicitis.

Parker is about 25 years of age and the younger of the two men. Stone is about 40 years of age. He resides at 1114 Buena Vista avenue. Parker lives at 363 East Fifteenth street, Oakland. He is a prominent member of the Berkeley Lodge of Elks.

Stone's right arm was broken by the fall, and his head was injured. Both men were unconscious when they were picked up. Parker's condition is grave.

Charles Neal said today that the group of Elks around the building were discussing the painting when the scaffold broke with a crash. The accident caused considerable excitement and drew many to the scene.

The first accident that has occurred on the building since building operations were started. The structure is expected to be completed within twenty days.

Pretty Sacramento Girl Is
Extensively Feted in Alameda

MISS DOROTHY E. WILLIAMSON, who has been extensively entertained during her visit in Alameda.

ALAMEDA, Jan. 18.—Miss Dorothy E. Williamson, the attractive daughter of D. E. Williamson, managing editor of the Sacramento Union, has been extensively entertained during her visit in this city. She has been the guest of her aunt, Mrs. Frederic B. Jansen, of 1812 Encinal avenue, and the home of the latter has been the scene of many social gatherings in honor of the fair visitor from Sacramento.

Miss Williamson is a vivacious and pretty brunette. She was one of the most popular girls of the younger set in Sacramento during her residence there.

Miss Williamson is the granddaughter of the late Colonel D. J. Williamson, United States army, and the great granddaughter of the late George T. Bromley.

Miss Williamson is spending a few weeks in Mill Valley with her parents, preparatory to skipping up her residence in San Francisco. As she has many friends in the larger city across the bay she will be the recipient of many social favors.

The Phi Alpha Sigma sorority, of which Miss Williamson is a member, entertained in her honor this week at an elaborate function.

Miss Williamson is spending a few weeks in Mill Valley with her parents, preparatory to skipping up her residence in San Francisco. As she has many friends in the larger city across the bay she will be the recipient of many social favors.

The Phi Alpha Sigma sorority, of which Miss Williamson is a member, entertained in her honor this week at an elaborate function.

Miss Williamson is a vivacious and pretty brunette. She was one of the most popular girls of the younger set in Sacramento during her residence there.

WOMEN POSTPONE
FARGES ONE WEEKSophomore Co-Eds Give Way
to the California Informal
on January 21

BERKELEY, Jan. 18.—Because the California Informal was postponed until January 21 the same night on which the sophomore women planned to give their farces for the benefit of the senior women's building fund, the latter event has been postponed until January 28, and will take place in Hearst hall.

"The New Professor" and "Love Will Find a Way" are the farces to be given in conjunction with the "Yama Yama" chorus. Release sale are now in progress under the direction of the Mack and Dagger society, and the presentation will be open to women students and their friends.

These in charge of the affair are as follows:

Managing committee—Miss Edith Pence, chairman, Miss Pauline Pence, Miss Irene O'Connor, Miss Gladys Baker.

Finance committee—Miss Fern Andrus, chairman, Miss Elizabeth Bridge, Miss Tessa Harrison, Miss Dorothy Pence, Miss Hazel Hunt, Miss Al. Abbott, Miss W. L. Hunt, Miss Rose Gurnea, Miss L. L. Larkins, Miss Gwendolyn Powells, Miss Dorothy Doyle, Miss Mildred Jordan, Miss Anna Kilders, Miss Lillian Brown, Miss Marjorie Stanton.

Refreshment committee—Miss Alice Earle, chairman, Miss Doris Spencer, Miss Lillian Lockhart, Miss Olive Bunker, Miss Catherine Walker.

CONSENT GIVEN
TO ENGLISH CLUBBritish Actor Says Members
May Present "Nero" in the
Hearst Greek Theater

BERKELEY, Jan. 18.—Written permission has been received by the English Club in the University from Sir Herbert Beerbaum Tree, the noted English actor for the production of "Nero" by the club this semester.

In doing so the actor placed no restrictions or royalties on the club, notwithstanding the fact that the play was on the other side of the Atlantic and as yet has not been produced in this country. Sir Beerbaum Tree expressed his high appreciation of the work and ambition of the English Club.

The play obtained by the club is one in four acts from the pen of Stephen Phillips, who attained considerable fame abroad as the author of "Paolo and Francesca." "Nero" deals with the life of the great Roman emperor and particularly the dramatic portion of his reign. It is admirably adapted to the use of the English Club and for presentation in the Hearst Greek Theater. The dramatic committee of the club will meet tomorrow afternoon to consider such matters as a coach and time of try-outs for the cast.

ELKS' CLUBHOUSE TO BE
READY IN TWENTY DAYS

ALAMEDA, Jan. 18.—Powell Bros. announced today that the Elks' clubhouse on the north side of the city, near Oak street, would be completed within twenty days. The second coat of paint is being put on the building. The color will be white. The structure will be one of the handsomest in the city. It is of the Colonial style of architecture and will be the largest yet erected on the waterfront.

The Elks are preparing to hold their housewarming on March 17, their fourth

The Vik of Pinole reported to Po-
an Scollin, at midnight, that

FULLETTA WRESTS PURSE FROM RALEIGH IN DRIVE

Helen Barbee Captures Baby Race in Hollow Style--Billy Myer Wins Again

The largest Monday crowd of the meeting took a hand in the game at the Oakland track yesterday. A beautiful day with an immediate clearing away of clouds for public, and while the card appeared tough to pick, the speculation during the afternoon on "silent row" was brisk and all seemed pleased with results obtained. It was a day of upsets, as Fulleita and Coppertown were the only two favorites to make good.

The feature of the well-balanced card was a purse affair, which was won by "Puddin' at the pole" with Jockey Taplin up was installed favorite, with Raleigh a close second choice. Starter Dryver got the bunch off to a good start with Raleigh in front and Fulleita and Coppertown in the three-quarter pole where Raleigh was challenged by Fulleita.

The pair raced nip and tuck until the paddock was reached where Fulleita responded gamely to the whip and in a driving finish beat out the second choice by a neck. Raleigh beat the supposed good thing, Miles, by a city block.

Special delivery was made to the place where the race may as well have been left in the barn. Edwin T. Fryer and Natrix, who were carried to start, declined the issue.

At the second race, a well trimmed youngster by Peep O'Day, won the baby race in real race horse fashion. At the rise of the barrier she took the lead at once and ran as straight as a string and as long as a length. Raleigh ran a game race and was an easy second from Midia. The latter hung a bit at the end.

Jack Crane's Billy Myer found a truck to take him in the race over the stirring route. The brown gelding by Fresno took a commanding lead at once and simply towed up his field all the way to the end, which was a good second from Grace G. and his usual honest race. The latter ran a swell race and easily disposed of Servience for third money.

**JEFF IS DELIGHTED
WITH ROOSEVELT'S
INTEREST IN FIGHT**

NEW YORK, Jan. 18.—James J. Jeffries announces that he is delighted to learn of Roosevelt's interest in his forthcoming fight with Johnnie. A telegram from Jeffries given out here today is as follows: "Lincoln, Neb., Jan. 17.—I am glad to know that the battle which I am about to engage in interests

believe that it means more than just deciding the heavyweight championship.

"The interest of Roosevelt may mean that the fight might place the boxing game on a higher plane than that which it has formerly occupied."

Railroaders Will Stage Promising Program of Fights

Burly Americans Will Exchange

Bishop took the favorite, Ed Ball, into camp for the place.

"Clocks" report that Ed Ball ran his race on Sunday when he was worried of the inside track and again worked very hard to come out of the crowd and win the speed. Ed Tony Faust lay close to all the way but sulked when the real racing took place.

Coppertown, the winner of the circuit race, ran Binocular down the first quarter of a mile, then drew clear, taking the race with ease. Flex, with Buxton in the boat, ran a smart race and just got up to beat out Miss Picnic for third place. Flex saved a great deal of ground at the last turn and finished stoutly. Binocular dogged it badly. Delmas ran a good race, but was up against it.

Jack Atkins, one of the best known

Swats in All the Classes

Fight fans are offered a delectable dish of amateur scrapping Friday night across the bay when the Oakland state meets the first card of the year under the new municipal regime. Dreamland will be the scene of the excitement and the fighting will run the gamut of every class from the bantams to the heavies.

Big Lou Rushing and Walter Monahan, who were both licked in turn by Joe Lanum, present holder of the amateur title, will fight again for the consolation stakes. There is nothing to recommend this match but the fact that Monahan and Rushing met once before and was the bloodiest and most terrific of battles. As action often takes the place of strategy, the fight will offer the fans a surfeit of the rough stuff.

Both the army and navy should turn out for the second round of the contest. Petrofsky and Kanuski, met. Hero are a couple of "Gunboat Smiths." Petrofsky needs a good thrashing and Kanuski, the Presidio champion, Soldier Abe Allen.

The Railroaders card in full should entice a goodly throng to the arena from Oakland. Charlie Rogers and Walter Scott are the cleverest 125-pound boys in the state. They will meet in the main event. Arthur Nelson, George Kirkwood, conqueror of Oliver Kirk, will clash with

ing a few days with Barney Schibler and other friends in Oakland left him night for his home in Los Angeles. Mark informed the writer before leaving for the city of oranges and lemons that he will take unto himself another bride within the next two weeks.

Sacramento Valley Scholastic League Adopts Rugby Game

SACRAMENTO, Jan. 18.—The Sacramento Valley Interscholastic Athletic League has adopted the Rugby style of football for next season. As this league comprises the highest high schools in the Sacramento valley it virtually means the death of the old game in this part of the state.

Proposed for the year selected as the place for the annual field meet of the league April 25. The state team at Davis given membership in the league under the name of Davis.

AUTOMOBILE SHOW

AUSPICIOUS OPENING OF OAKLAND'S AUTO SHOW

MOTOR CAR EXHIBITION SURPASSES EXPECTATIONS

By CHARLOTTE E. MOYES.

The motor is king in Oakland this week! Opening last night, with a long parade, the first annual automobile show surpassed the expectations of even the most optimistic, both in beauty and in success.

At 7 o'clock the cars, looking more like great, creepy bugs, began to assemble at the corner of Fourteenth and Broadway, and before 7.30 there were 200 cars in line which, led by a band in a Maxwell car, wound their way through the city and out to the big pavilion. Two Franklin cars followed the band, one carrying the chief of police and his aides, and the other, Marshal Robert W. Matland and the Franklin agents. P. R. Fagel, Rambler agent for Alameda county, won the prize for having the largest number of cars in the show. The pavilion was beautifully decorated, and it is the vote from every one that Oakland's show has far eclipsed those held in San Francisco.

The 1910 Marion is built for men who know cars and is high-class in every sense. It possesses reliability, strength, power, speed, flexibility and elegance, which accounts for its desirability.

W. Loos, local agent for the Marion cars, said last night: "The Marion is not so much built to see; it is built to use. The factory devotes its entire facilities to just one model, and to building the details of that one right. The designing engineer devotes his whole time to improving, refining and simplifying the details of this one car. Added to its strength in construction and mechanism, it has speed. Up to the summer of 1909 it had never been raced, and its debut was made at Crown Point June 18, for the Indiana trophy. The total distance was 235 miles. The entire course was covered by the Marion without a stop for oil, water, gasoline, tires, repairs, or for anything else, and not once being passed. The Marion finished third out of nineteen cars, and came in but a few minutes behind the winner. A month later, at the races at Wildwood, N. J., the Marion stock car won three firsts, two seconds and one third. The next day it won the hill climb at Plainfield, N. J. Since that time it has often been victorious and has already established a place for itself in the racing world. The motor is four-cylinder, cast in pairs, 4 1/2-inch bore, 4 1/2-inch stroke, developing 40 horsepower. The speed capacity is from 4 to 60 miles per hour on the high gear. It has a multiple disc clutch. Transmission is through speed selective running on annular ball bearings. The wheels are 34x4, and the wheel base is 1.12 inches, with 56-inch tread. The model is supplied with an option of either a five-passenger touring body or four-passenger close-coupled body. Then there is the "Special" Marion roadster, which is a two-passenger car, with combination tank in rear, holding twenty gallons of gasoline and five gallons of cylinder oil. This car has a wheel base of 102 inches. Other specifications are the same as in the larger models."

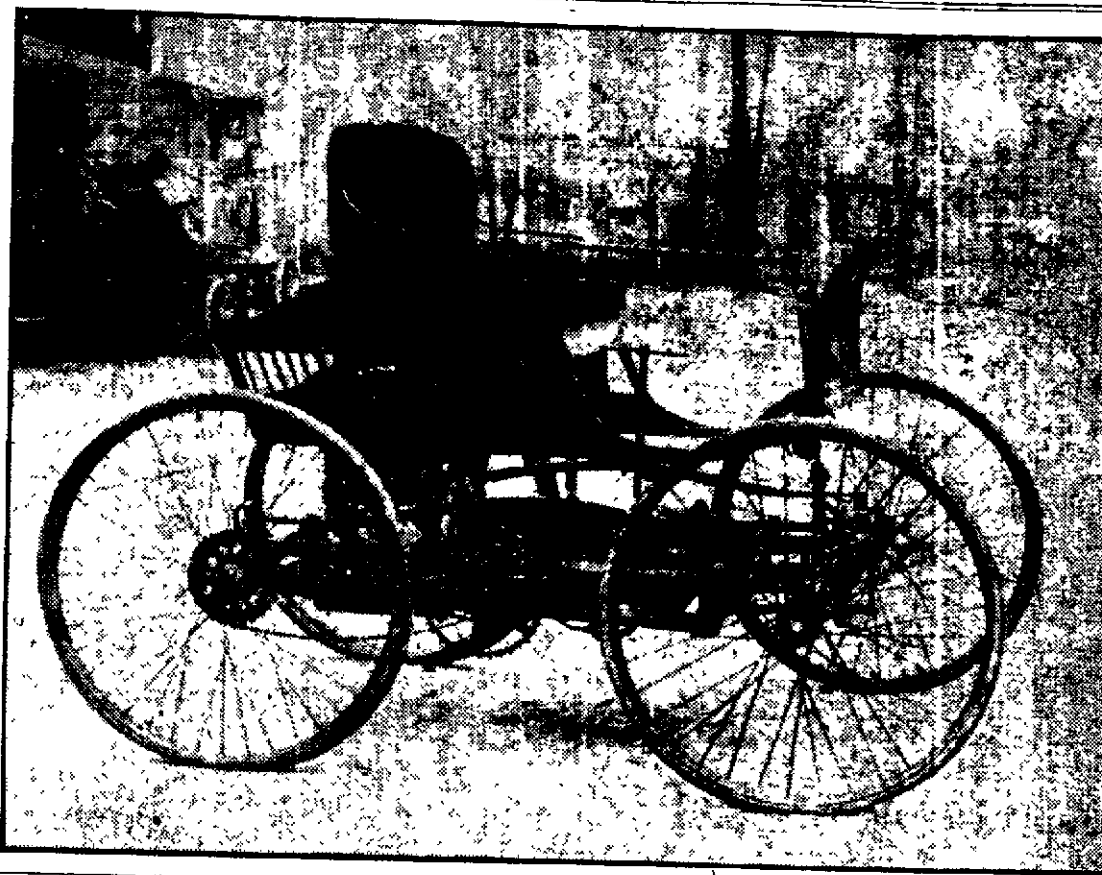

Although the Reo Motor Car Company continues to make one-cylinder

and two-cylinder cars is limited numbers, the new four-cylinder will have the right of way and will make up 80 per cent of the 1910 output from the Lansing factory. The cylinders have 4-inch bore by 4 1/2-inch stroke. Three-quarter shafts have been placed on this latest Reo. Other features of the car are the left-hand steering control and the dropping of the frame in front of the rear axle, allowing the motor and transmission to be carried sufficiently low with the three-quarter springs.

A magneto is part of the equipment, a battery also being supplied for starting purposes. There are many other attractive features about the new Reo model, among which must be mentioned its general appearance. It is low and graceful, with strong, straight lines, both in the touring car and roadster, bodies which belong to this chassis.

In speaking of the Stoddard-Dayton output for 1910, W. L. Loos, head of the W. L. Loos Company, which handles these cars in Alameda county, said: "The 1910 Stoddard-Dayton cars are manufactured with three sizes of motors, mounted on seven different chassis sizes. The motor types are 30-horsepower, with 3 1/2-inch bore by 4 1/2-inch stroke; 40-horsepower, with 4 1/2-inch bore by 5-inch stroke; and 50-horsepower, with 4 1/2-inch bore and 6-inch stroke. A change in the motor is the use of two rocker arms for each of the four cylinders, there now being one rocker arm for opening the intake valve and another for opening the exhaust. Both of these rocker arms are carried on a single yoke and offset so as to avoid staggering of the valves. The exhaust valve is now held in place by a double yoke, and another change to be noticed is that the intake valves are now on the right side of the cylinders and the exhausts opposite, which is the reversed position from former models. This allows of carrying the magneto and water pump on the left and the carburetor on the right. A cellular type of radiator has also been adopted, which changes the appearance of the car from the front. A new chassis for the season is the 30-horsepower one, designed solely for closed or town cars. Its wheel base measures 108 inches and is designed to carry limousine, landulet or town car bodies."

A. C. Hall, local agent for the Maxwell cars, has received word from the home office in Tarrytown, N. Y., that preparations are rapidly being completed for a complete wireless system of communication between the plants of the Maxwell-Briscoe Motor company, located at Tarrytown, Providence, Detroit, and New Castle. This course is the result of the tremendous stress of inter-plant business and the inability of the present method to handle the volume of messages. Mr. Briscoe, the president, believes that the facilities that wireless will provide will be of incalculable benefit in disposing of the great volume of daily communications that confront him. On the other

THE FIRST AUTOMOBILE BUILT IN AMERICA—"THE HAYNES"

hand, he states that its economy is only exceeded by that which attends the running of a Maxwell automobile.

How things and even speed have changed was most vividly illustrated by a picture exhibited at the automobile show of the first Haynes car, built in 1895—practically the first gasoline automobile—and the present perfected car, which stands near the picture in shining splendor.

When the car was built, Haynes was compelled by the city authorities to tow the queer-looking equipage before it could be started. The car has been running since that time, and each year, on the anniversary of the completion of the first Haynes, a jubilee celebration is held at the factory in Kokomo, Indiana.

Some one who recently visited the factory, and who had been there many years ago, recently said: "The first Haynes makes a lot of noise, and makes it all the time, and what a wonder is still making it!" The picture shows a tall, spidery, ungainly-looking vehicle, while beside it is the long, graceful motor car now being put forth from the factory.

N. F. Peart, of the firm of Peart & Elkington, local Diamond tire agents and vulcanizers, said yesterday: "There is interesting history back of the Bailey 'Won't Slip' Tread style of automobile tire, manufactured ex-

tensively by the Diamond Rubber Co., and some of the other principal tire concerns, as licensees, under patents owned by C. J. Bailey, a rubber manufacturer of Boston.

"The original idea for this tire, the tread of which presents to the street a constant succession of rough knobs of rubber of certain peculiar shape, was developed from a rubber tip, invented for use on crutches, a number of years ago, by Mr. Bailey, who is one of the 'honors' in the rubber business in New England."

"The patents have been extended to cover tires of every type, and what is known as the Bailey 'Won't Slip' Tread, the Diamond tire concern is now applying to motor cycle and bicycle tires, as well as automobile equipment. Summer or winter, the argument goes, the Bailey tread is a fine thing on the rear wheels."

"Geo. Schuster, with his Thomas car, used the Bailey tread extensively, in the New York to Paris race of two years ago."

CALENDAR OF EVENTS IN THE CITY WORLD.

Jan. 17-24.—First Annual Automobile Show in Oakland, Cal.

Jan. 24-29.—Third Annual Automobile Show in Detroit, Mich., under direction of Detroit Automobile Association.

Jan. 24-30.—Fourth Annual Automobile Show in Washington, D. C., under the auspices of the Washington Automobile Dealers' Association.

Feb. 4-5.—Annual Mardi Gras Speed Carnival, New Orleans Automobile Club, New Orleans, La.; Homer C. George, manager.

Feb. 5-12.—Ninth Annual National Automobile Show in Chicago, under the auspices of the National Association of Automobile Manufacturers.

Feb. 14-19.—Eighth Annual Buffalo Automobile Show, at the Broadway Arsenal, under the auspices of the Buffalo Automobile Club; Dai H. Lewis, secretary.

Feb. 19-26.—Automobile Show in Salt Lake City, Utah, under direction of the Utah Automobile Dealers' Association.

Feb. 19-26.—Annual Newark, N. J., Automobile Show in Essex Troop Armory, under the auspices of Associated Automobile Clubs of New Jersey.

Feb. 14-21.—Annual St. Louis Automobile Show in the National Guard Armory.

Feb. 21-28.—Annual Automobile Show in Cincinnati, Ohio, under direction of the Cincinnati Automobile Club.

Feb. 21-28.—Annual Automobile Show of the Binghamton (N. Y.) Automobile Club.

Feb. 22-24.—Second Annual Automobile Show in Milwaukee, Wis., under direction of the Milwaukee Automobile Club.

Feb. 24-March 3.—Annual Automobile Show in Toronto, Can., under

the auspices of the Ontario Motor League.

Feb. 28-March 4.—Automobile Show in Omaha, Neb., under the auspices of the Omaha and Council Bluffs Automobile Dealers' Association.

March 5-12.—Eighth Annual Automobile Show in Mechanics' building, Boston, under direction of the Boston Automobile Dealers' Association; Chester I. Campbell, general manager, 5 Park Square.

March 21-30.—Third Annual Power Boat and Sportsmen's Show in Convention hall, Buffalo, N. Y., under the auspices of the Buffalo Launch Club.

Foreign.

Jan. 10.—Meeting of the International Aeronautic Federation in Paris.

Jan. 28-Feb. 5.—Automobile Exhibition of Waverley Market, Edinburgh, Scotland, under direction of Scottish Motor Trade Association.

Feb. 20-23.—Annual Winter Automobile Race Meeting in Sweden, under direction of the Royal Swedish Automobile Club.

March 15-April 1.—Automobile and Motor Boat Exhibition in Berlin, Germany.

June 2-8.—Annual Prince Henry of Prussia Touring Competition, under direction of the German Imperial Automobile Club.

E. R. Thomas, head of the E. R. Thomas Motor company, manufacturer of the Thomas cars, in a recent interview, spoke as follows on the tendencies of a motor designs:

"The advent of the automobile was made possible only by the develop-

(Continued on Page 15.)

BOSCH MAGNETOS

The Bosch Magneto Company's branch office, recently established in San Francisco, carries a complete line of magnetos, spare parts and fittings.

A corps of competent electrical engineers make this office their headquarters and their service for consultation and magneto topics will be found useful. This office is prepared to take care of all repairs as well as of the installation of magnetos on automobiles, motor boats, airships and all other combustion engines.

Bosch Magneto Company

357 Van Ness Ave., San Francisco

At EXHIBIT 25
AUTO SHOW

Thirty and forty-horsepower Chalmers-Detroit sell for \$1650 and \$2900 respectively. They are worth twice that price in ordinary automobile value. The best indorsement for any article offered for sale is the fact that it sells. Does anybody dispute the fact that the Chalmers cars are outselling all other cars on the market selling at like prices? We have already delivered thirty-eight of these 1910 machines and will deliver fifteen a week during the next four months.

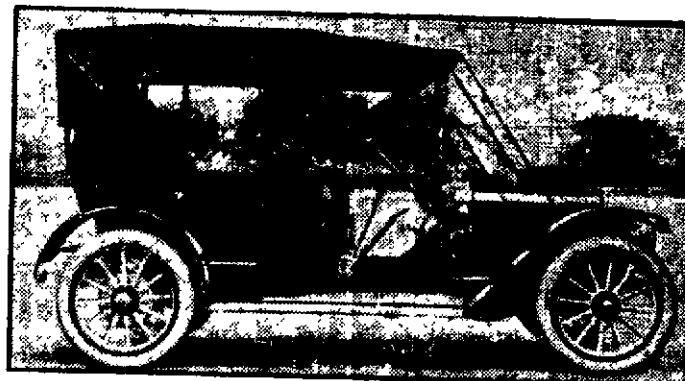

All other-discriminating buyers are ordering them. Why not you?

Chalmers-Detroit "30"

\$1650

Thomas-Flyer "6-50"

\$3680

A Thomas Car for the park or for the country. The all-around good car. All around the City or all around the World. Every 1910 Model Thomas as dependable as the New York-to-Paris race winner, but all much refined. The new \$3680, six-cylinder, the first high-powered Thomas with a shaft drive, is a winner. We are delivering these cars daily. The cheapest is \$3680; the highest priced is \$6180.

The Hudson Runabout was created to fill the demand of the buying public for a large car, reduced in size and price. This car embodies all the desirable features of the highest priced cars on the market, such as powerful, four-cylinder motor, three-speed selective type transmission, pressed steel sub and main frames, 1-beam front axle, 100-inch wheelbase, large wheels, etc.

We have sold 130 Hudsons during the last ten weeks. Remember, these cars will sell 130 more within the next six weeks. Place the order now. Delivery two weeks.

HUDSON "20"

\$1150

(Continued From Page 14.)

ment of gas engines of extreme lightness. An automobile engine usually weighs some 15 to 18 pounds per horsepower, as compared with about 320 pounds per horsepower in the old stationary types of gas engines.

The trend of present day automobile engine design is toward the long stroke, and toward quietness, and higher efficiency.

"The modern long stroke tendency started largely on account of the wonderful speeds attained by cars with long stroke motors in the European 4-inch races. The principal reason for this new development is to secure longer lived motors, since the longer the stroke the slower the motor can run and still deliver its rated power."

During the past five years the automobile has undergone great development, and at an unprecedented speed, a phase which every new machine is obliged to pass through. It has been improved in quality and cheapened by the natural method of elimination of the more unfit construction. This process is still going on, but at a slower pace than formerly.

The motor has been quieted by attention to the valve-operating mechanism, to the carburetor and to the exhaust line. It has been given remarkable flexibility by improvements principally in the carburetor and valve setting and the magneto has come into its own as the most reliable source of ignition current. The radiators have been strengthened and increased in cooling efficiency. The cylinder jacketing and lubrication have been improved in such a way that there is no longer any excuse for an over-heated motor.

In the transmitting system the old cone clutch has been greatly improved and the newer disc types have been developed, almost to perfection on our own patented three-disc clutch, I believe, being about as perfect as a disc can be.

Through the use of special material and of special tooth forms, together with the annular type of ball bearings, gear boxes have been reduced in size and silenced. The sliding gear has practically eliminated all other forms of transmission. The live rear axle with even driving mechanism has been developed from a most uncertain mechanism to one of the most positive and reliable units in the car.

For front axle, the one-piece drop forging and I-beam section, taken the place of the old built-up tube, or hand-forged rectangular section. The springs, especially in the rear, have been lengthened, flattened and made of better material, with corresponding increase in comfort, especially at high speeds.

The wheels, apart from the hubs and tires, have undergone less change than any other part of the automobile, but considered as a whole, the adaptation of drawn metal hubs, roller and ball bearings together with detachable wheels, have modified this unit very appreciably.

In this way it may be said that every portion of the automobile has been improved by men who had made this type of part a study for years before the advent of the automobile, and who thus were peculiarly well placed to help the automobile engineer in his work.

To the large automobile manufacturer belongs the credit of having the foresight and daring to invest large sums of money in a new industry replete with pitfalls, and thus providing the engineer with the means of working out his problems. That the American is able to complete and even beat the foreigner was conclusively shown when a Thomas stock car beat the best that Europe could produce in the New York to Paris race.

The Chalmers-Detroit cars for 1910 are not changed in any important mechanical way from the 1909 models. They are simpler, the motor and construction of the previous year improved and refined. "It was four years from the experience of last year," states A. R. Dawson, manager for the Oakland branch of the Pioneer Automobile Company, "that there were no weaknesses in the Chalmers-Detroit. This year the bore of the cylinders has been increased to 4 inches, slight changes were made in the exhaust valves on the Chalmers-Detroit 'Thirty,' which gives it more power, but otherwise nothing mechanically was done. Increasing the wheel base from 110 to 115 inches makes possible an improved suspension of the body with reference to the axle, as well as a better body design. The plunger oil pump has been placed on the left side of the motor, which makes it more accessible. The sizes of the wheels have changed from 32 to 34 inches, to which 3 1/2 inch tires are fitted. I have already sold a number of these cars and they are giving the greatest satisfaction."

George Vesner of Vesner & Abadie, managers of the H. O. Harrison Company in Oakland, said last night: "In speaking of the 1910 Peerless cars the makers have retained both the four-cylinder and the six, which are alike in design and which use the same cylinder casting with a bore of 4 1/2 inches, and a stroke of 5 1/2 inches. Practically the same body design and engine and emergency brake lever are slightly in advance of last year's style. This has been brought about by supporting the transmission set from 6 to 8 inches higher the frame bracing, the front floor boards, and greatly increasing its accessibility. Tires are increased from 3 to 3 1/2 inches on the rear wheels, while the gas tank has now a capacity of 20 gallons instead of 17. The four-cylinder thirty horsepower Peerless chassis is equipped with touring car body, pony tonneau, close coupled, or limousine. The fifty horsepower, six-cylinder chassis takes the touring car, flyabout or tourabout, limousine or landaulet. The wheel base of the thirty horsepower, or four-cylinder, is 112 inches, while the wheel base of the six-cylinder is 138 inches. The Peerless is equipped with storage battery and magneto."

F. F. Gillette, local agent for the Elmore two-cycle valveless cars, is one of the latest to join the Oakland automobile circle. Gillette is, however, old in the motor world, having been connected with a number of well-known makes of cars in the east. He is probably best known here as the manufacturer of the "Gillette," a little racing high-power car, built at Heald's automobile school in San Francisco. Gillette recently said with reference to the Elmore cars: "I am prepared to demonstrate that the 1910 Elmore engine is the simplest and most efficient to be found. A strong point in its favor is made known by the guarantee we give to keep the car in repair for a year without charge—it is almost proof against repair expense. And to this the important fact, and one that is backed up by reports from Elmore owners, the cost of maintenance is less than for any other car in existence. You will see at once that these qualifications are the best to be hoped for in an

automobile. The Elmore plant was the first to adopt the three-port, two-cycle engine, and it is still the only one to have perfected it. The two types for 1910 are the four-cylinder, thirty horsepower, and the six-cylinder, forty-six horsepower. The cars have a wheel base of 112 and 120 inches, respectively, and the four-cylinder is 34 inches by 4 inch stroke, and the six 36 horsepower and 38 1/2 inch stroke and rear, on the 46 horsepower."

No small amount of interest has been taken in the Paterson "30" weeks ago. Charles C. Steele, who handles the car at the Keweenaw Motor Car Company, has been kept busy demonstrating this popular-priced four-cylinder thirty horsepower car. Steele has not only been busy demonstrating, but has had several orders for future deliveries. The car has a speed capacity of from five to fifty miles an hour. It is strong and is well built and has lines of beauty not found in many cars of twice its price. The materials used in the Paterson are of the highest quality, as is also the workmanship by which it is constructed. Steele has made a number of strenuous tests with this car and has never found it wanting. "It goes where you please and seems pleased to go," said Steele.

Gundher Jahn, secretary of the Bosch Magneto Company of New York, who is visiting the coast, and Manager H. Brinkman of the San Francisco branch are at present in Los Angeles, where business as well as pleasure calls them. Most of the aeroplanes and monoplanes in the aviation meet which is being so successfully held in the south, and equipped with Bosch magnetos.

In speaking of the outlook for the season, Mr. Jahn said before leaving for the south: "We are just as busy as we can be. Our only regret is that we did not open a branch here a year or eighteen months ago. It looks to me as though this was going to be a banner year for the automobile all over the United States, and especially in California, where you enjoy such a beautiful climate."

Manager Brinkman said: "We have installed Bosch magnetos on a large number of cars which have not been equipped with magnetos before, during the last two or three months. This, with new sales, has kept us busy. The guarantee given by the factory to keep the magnetos in repair for a year draws many, as well as the fact that all parts are readily and quickly obtained from our branch on Fulton and Van Ness."

The ignition of the mixture with the Bosch magneto is effected by means of an arc, which is formed between the electrodes of a spark plug. This apparatus therefore belongs to the high tension or jump spark type. The high tension current is generated in the winding of the rotating armature, without the use of a special induction coil. During each revolution of the armature two sparks are produced, which are distributed to the different cylinders by means of the high-tension distributor.

The variation of the time of ignition is effected on the magneto itself by means of the timing lever, causing the interruption of the primary current to take place earlier or later.

Among the 1910 cars which are equipped with Bosch magnetos at the factories are: Alco, Acme, Apperson, Auburn, Autocar, Babcock, Chalmers-Detroit, Clement-Bayard, Columbia, Comet, Corbin, Franklin, Haynes, Herreshoff, Hudson, Hupmobile, Kiesel-Kar, Kline, Knox, Lozier, Matheson Moon, Oldsmobile, Palmer, Singer, Peerless, Pennsylvania, Pierce Arrow, Pope-Hartford, Premier, Pullman, Rambler, Renault, Royal Tourist, Selden, Speedwell, Stearns, Stevens-Duryea, Stoddard-Dayton, Studebaker, Sunbeam, Thomas, Tourist, Welch, White and Winton.

Just where to begin his personal investigations when contemplating the purchase of a car that has been used but appears "as good as new" outwardly, is a problem that many a man has encountered and despaired of solving. It often ends in a determination to take no chances, but to buy a new machine, and more than one man has passed by a good bargain because of his lack of knowledge.

Discussing this problem, the head of an eastern automobile manufacturing company makes some of the following points:

It should be remembered that the engine is the most important part of an automobile. Upon its condition depends the ability of the car to run at all. Great care should be given to its examination. Cylinders should be free from cracks, and compressions should be tested by pulling the starting crank slowly around until each piston responds to the stroke. If in turning a resistance commensurate with the size of the cylinders is evidenced, the compression can be regarded as reasonably safe. If there is no resistance it is at least sufficient to raise the question with the seller.

The transmission and clutch should be thoroughly investigated. The clutch should grip easily, not with a jerk, and hold tightly without slipping. A jerky clutch causes undue vibration, strain and wear, and if it slips means a loss of power. Care should also be taken to examine the gears to see that they are not badly worn and that they mesh properly in each position.

In shaft drive cars the alignment of the shaft with the rear axle is important and the various connections along the shaft should be investigated to determine the amount of wear. In chain drive cars the links of the chains and the teeth of the sprockets should be examined for wear.

The examination of the rear construction and the differential is a hard matter, as the gears and fittings are enclosed. Still, much can be learned by observing how the car responds when changing speeds and by noting the power transmission when the clutch is dropped on. If the car jerks and there appears to be an interruption of power, it is enough to warrant investigation, as there is, perhaps, a broken gear tooth or poor adjustment.

Too much importance cannot be laid upon the steering apparatus. The column should not be too loose and yet not too rigid.

Attention should be paid to the wiring of a car, and it might be well to suggest an investigation into the proper use of sag or breakage of the wheels, as to their proper construction, to far defective spokes or their loosely fitting into the flanges is concerned. The brakes should be properly lined and attention should be paid to their ability to stop the car at a reasonable speed.

Last year it was the toy tonneau that was the body feature; this year the torpedo type of body is the newest thing. Notwithstanding their odd appearance, they present something new in the way of comfort by keeping out cold, and lowering the wind resistance, and for this reason, if no other, they are bound to become popular and remain so.

One of the troubles of the toy tonneau last year was the lack of leg room, but the long wheel bases of 1910 give the body maker more room, and this room has been used in front.

The custom now is to allow about twenty-six inches of space between the driver's seat and the dash, and a gain of from two to six inches over last year.

Sheet aluminum and cast aluminum are used in many of the high priced bodies, but the pressed steel body appears to be coming. Body construction as a rule is well done, the automobile with its fast movements requiring a stiffer and stronger body than the horse drawn carriage.

Hand buffed leather of all colors is used even on some of the very low priced cars, and the upholstery, especially the cars having tufted sides and seats, is admirable. The tufted upholstery is more popular than last year, the smooth, plain upholstery such as was used in the baby tonneau of last year not making so greatly for comfort on rough roads and long runs.

Notwithstanding the vogue of the torpedo body the toy tonneaus are as popular as the roadsters were a few years ago, and one of the features of this year's models is that the uncomfortable rumble seat has been dropped. It was never intended to carry a guest. The rumble was borrowed from the

horse drawn carriage and was only there intended to carry a servant.

The close coupled body is also very popular. There is no settled line of body nomenclature. Nearly all of the open cars have tops, and even wind shields are now made as a regular part of the outfit, many makers having their own design of wind shields. Many of the makers include lamps, horns and gas tanks as part of their regular equipment without extra charge.

The Stearns fits a demountable rim as part of the regular equipment, although the Knox has been putting Flak demountable rims on for some time. Many of the high priced cars are fitted with shock absorbers, the Winton having its own design. The Oldsmobile uses a popular open market model.

It seems as if all the makers, the chassis has reached the finality of mechanical efficiency, have turned their attention to giving the bodies a superb simplicity and comfort that has never before been attempted. It must always be

borne in mind that the automobile differs from the horse drawn vehicle because it carries its load of passengers faster through the air and on longer trips than was ever before deemed possible. Therefore, consideration for ease and comfort must be always kept in view. If the torpedo body is only a fad it will leave behind it, even if it disappears, some worthy ideas for increased comfort, and it is safe to say that such modification of the torpedo body will always survive and be a prevailing type.

Starting the motor-driven car on a degree of popularity, then neglected to a degree for a time because the manufacturers considered the returns not in keeping with the expense, automobile racing has come again into its own. The year just ended was filled with the excitement of contest with all the places represented, from portious springs on half-mile tracks to long distance struggles on the public roads.

Therefore, consideration for ease and comfort must be always kept in view. If the torpedo body is only a fad it will leave behind it, even if it disappears, some worthy ideas for increased comfort, and it is safe to say that such modification of the torpedo body will always survive and be a prevailing type.

Starting the motor-driven car on a degree of popularity, then neglected to a degree for a time because the manufacturers considered the returns not in keeping with the expense, automobile racing has come again into its own. The year just ended was filled with the excitement of contest with all the places represented, from portious springs on half-mile tracks to long distance struggles on the public roads.

(Continued on Page 15.)

Osen & Hunter Auto Co.

12th and Jackson Streets

Oakland 4076, A-1243

OAKLAND,

CALIFORNIA

THIS AD. IS ONLY FOR OWNERS OF E-M-F "30" AUTOMOBILES

Our records of owners of E-M-F "30" Cars are not complete—we lack names and addresses of several hundred owners, and in many cases where cars have changed hands we haven't the address of the new owner.

As long as there is an E-M-F nameplate on the car we consider it ours and our duty to extend every courtesy and attention to its owner.

We guarantee every car, no matter by whom sold, and always stand back of the guarantee.

During the past few weeks, for well-known reasons, some owners, we are informed, have not received prompt service. We want to hear from all such.

Also we would like to hear from every one of the 10,000 owners of E-M-F cars, if only to be sure we have your correct name, address and number of your car for our files.

Write us, and in return for your trouble we'll send you "Another Talk With Flanders" on selling automobiles and taking care of the customer.

THE E-M-F COMPANY,

Manufacturers of E-M-F "30" and Flanders "20" Automobiles
Detroit, Mich.

Member of A. L. A. M.—Licensed Under Selden Patent.

Auspicious Opening of Oakland's Auto Show

(Continued From Page 13)

The nature of contests, however, has changed, and to this is due the revival in popularity of racing. Where a few years ago the special racer was all-conquering, today it is practically obsolete. Its infrequent appearance simply draws attention to the maker. Its place as a speed creation has been taken by the highly improved stock car, capable of being tuned up to excessive speed, but identical in its construction with the machines that the public is asked to purchase. These are now the idols of the speed enthusiasts.

In the season just approaching the probabilities are that contests in this country will be more frequent than ever before, and that there will be more diversified. Speedway and track contests, it would appear, are to be more numerous than other forms, but the highly popular road race will hold its own. Whatever the form of contest the manufacturers realize that racing with stock cars is a valuable business proposition. Even the performance that fails of victory can be turned to account as a demonstration of steadiness and reliability if the car stands up, and the average stock car generally manages to do at least that.

Automobile racing, it must be admitted, has not the same element of sport about it that is associated with basketball, football and similar pastimes, owing to the mechanical factor which must be a part of the contest. Yet it cannot be denied that automobile speed contests bring with them an excitement and pleasure that can hardly be surmised. Those whose good fortune it has been to witness the great races of the past cannot have lacked a thrill as they beheld the cars flash into view, running at almost incredible speed.

Those who have taken the pains to study the grim determination on the faces of the drivers as they exert their best energies to get the utmost out of their machines cannot but have been struck with the earnestness in which they went about their work, and also by the skill with which they accomplished it. From an ethical point of view the spectacle of a man urging a mechanical construction may not be truly a sporting one.

There can be no doubt, however, that racing so closely approximates sport and is productive of so much public interest and excitement that for all intents and purposes it may properly be included in the category.

Students of automobile progress are well aware of the immense benefits which have resulted from racing in the past. In the early days prejudice against the most modern and most fascinating means of road locomotion was almost universal; the automobile was the object of derision and abuse on all sides. Its advent to the masses was by no means a well-timed one, and it was not until the wonderful possibilities that lay ahead of it became to be more generally realized that manufacturers found the new industry which they had embarked upon anything like a prosperous one.

One of the great, if not the greatest, means of educating the public to the pos-

sibilities and later on the advantages of the automobile was the introduction of racing. Competitive events demonstrated the qualities of the automobile, and by the wide publicity given to the performances of the competing machines people throughout the world began to grasp the potentialities of one of the most remarkable inventions of modern times. Not only were the good points of the cars brought out in racing, but the weak ones from the constructional point of view were also discovered.

Slowly but surely, mainly as the result of racing, these weaknesses have been eliminated; indeed, the improvements have been so many that the automobile of today is regarded as an approximately perfect piece of machinery.

As to what would constitute a perfect car no one knows, otherwise they might be built. Indeed, it is a well-grounded axiom that perfection is unattainable. The perfect automobile, even from the mechanical point of view, may never materialize. One thing that is certain is that automobiles throughout the

world are now being constructed upon more or less standard and thoroughly defined lines.

The gasoline types of machines are now so very much alike, being built upon almost identical principles, that there is no feature of vital importance that distinguishes one from the other. This universal unanimity on the part of the designers testifies to the general approval of the modern lines of construction, and although this result may not have been attained fully by the introduction of racing there is not the least shadow of a doubt that speed contests have been largely responsible for it.

Although the average automobilist has no desire to violate speed laws, yet it is a source of lively satisfaction to know that he has under him a machine which has the ability to do great things. It is this feeling which induces a man to purchase those types of machines that have gone successfully through the ordeal of racing.

RAYNER IS SELECTED TO SUCCEED HIMSELF

ANNAPOLIS, Md., Jan. 18.—Isador Rayner was today named to be United States Senator to succeed himself by both houses of the Maryland Legislature. The action will be ratified in joint session tomorrow.

CHINESE family cook; wages \$15; \$50. Box 15899, Tribune.

Uncle Sam

Now recognizes the importance of the Classified Column. The "want ad" is part of the national life and its utility is apparent to every reader. As a modern convenience the want ad is greatest.

The latest patron of the want ad page is the United States. The Government has found that the most effective way to recruit the navy department is to use the want ad. It is announced from Washington:

"The only method of securing applicants which the service finds more effective than the colored posters is the newspaper want ads."

After resorting to every other means of attracting the attention of the young men, Uncle Sam says "that about the only kind of advertising he needs to pay for is the newspaper want ads."

It is interesting to watch the development of a method of doing business. Everything under the sun is traded and sold in the want pages. The newspaper that has the want ad supremacy. Moreover, the want page is a most interesting page to read. There is a great deal of human interest in the countless bartering. Human nature is seen in many guises. The intelligent reader never misses the want ads.

**LAURA MACDONALD
IS WITH FRIEND**

**Woman Almost Insane as
Result of All of Her
Troubles**

SAN FRANCISCO, Jan. 18.—Pearl

The result in a mania for self-destruction which may amount to suicidal insanity. Mrs. Laura McDonald will be taken here before nightfall once more to the home of her benefactor, Miss Maude Younger, 3444 Eighteenth street and closely watched.

TAKEN BY FRIEND.
After attempting suicide by gas asphyxiation at 9 o'clock Sunday night, she was taken to the Mission Emergency hospital, and her life saved by the superb human efforts of the physicians.

hospital, from which institution she was transferred today to the care of Miss Younger, the settlement worker, who has so long been her mainstay and who tried to make bright the many dark spots in her existence.

It will be remembered that Mrs. McDonald was deserted by her husband not long after the birth of her child, and was

**OFFICERS ARE INSTALLED
BY KNIGHTS OF PYTHIAS**

In the presence of members and associates from the various lodges of Alameda County, Athens Lodge, No. 14

Installation of its newly-elected officers last night in Pythian Castle, Twelfth and Alice streets. W. P. Williams, district deputy grand chancellor, conducted the installation ceremonies, which were followed by a dance.

The officers chosen at the last annual election held in December and who were installed last night are as follows: F.

R. Germain, vice-chancellor; A. L. Bontrager, prelate; C. L. Spaulding, master of works; J. J. Naagle, master of exchequer; B. H. Boyce, master of finance; Walter J. Herkenham, keeper of records and seals; R. W. Kent, master-at-arms; R. F. Vane, inner guard, and O. L. Mathieson, outer guard.

U. C. CADETS PLAN A MILITARY BALL

BERKELEY, Jan. 18. — Plans for a elaborate military ball, to be given by the cadets of the State University, were begun this morning when at a meeting of the officers of the various companies of the university cadets, plans were made for the ball.

Heading the committee as general chairman of the ball will be Captain James Stewart, head of the staff, and member of the Sigma Nu fraternity. Captain D. Y. Lamont will be chairman of the arrangements committee, and Captain Harris of the reception committee.

\$350.00 PIANO FREE

Grand Free Limerick Contest

Inaugurated by
CLARK WISE & CO.

1110 Clay Street, Oakland

\$8000 Worth of Other Prizes

Having bought out the stock of the Page Piano Co. at 1110 Clay street, Oakland, Clark Wise & Co. desire to announce the opening of their Oakland Store by giving away more than \$8000 in premiums, and every one is invited to participate. Try to get the beautiful \$350 piano on display in our show windows. This piano will be given away absolutely free to the person sending in the best fifth line to complete the Limerick verse shown on the coupon below. Read the simple conditions and send your answer at once.

All you have to do is to write one line and you have the same opportunity as any one else to win the piano. This contest is conducted for people desiring a piano, and to any home without one it is of the outmost importance. It is the greatest free offer ever made.

Through this great contest we will introduce the Clark Wise & Co. selling-plan and get in direct touch with piano buyers as we could by no other method, saving the gigantic expense of magazine advertising, canvassing, commissions, etc. We also intend to use the clever Limericks for advertising cards. Be sure and enter.

THE PRIZES

FIRST PRIZE—A fine new piano valued at \$350.
SECOND PRIZE—A certificate check of \$125.
THIRD PRIZE—A certificate check of \$100.00.
The balance of the \$8000 to be distributed in certificate checks in values ranging from \$75 to \$25 each.
Special advertising appropriation—In addition to the above prizes we will voluntarily issue to each of the remaining contestants a special certificate check of not less than \$10 as an award for their effort in this contest.
These certificate checks are good on the purchase of any new piano or player piano in our store at 1110 Clay street at the regular retail price. The time of these certified checks is limited. They cannot be applied on any purchase made from us prior to January 18. Only one certificate check may be applied on the purchase of any one piano.

SIMPLE CONDITIONS

This contest is open to every one except employees of Clark Wise & Co. Only one answer from one family. Write plainly and use the coupon only as no answer will be accepted unless this is done. The best answer in the opinion of the judges will be awarded the first prize. Others in accordance to their value. All answers must be delivered to us by mail or in person on or before 5:30 p. m., January 22nd, 1910.

COUPON

Fill out last line of verse below, answering questions, sign name and address.

A MUSICIAN ONCE SET OUT ON A QUEST,
EACH GOOD PIANO TO PUT TO A TEST;
A SCHILLER HE TRIED,
AND VERY LOUDLY HE CRIED,

Write your line here.....
I submit herewith my Limerick and agree to abide by the decision of the judges.

Name.....City.....

Street.....State.....

State whether you have an upright or a square piano.....

THE JUDGES

Disinterested judges will be chosen to decide this contest and their decision must be considered final. All prize winners will be notified. Here is a sample Limerick, showing one completed:

Said a musician of fame far and near,
A Shiller Piano is without any peer;
Its tone is I find
Just the right kind,
And what's more, it grows better each year.

The Limerick shown on the coupon below needs one more line. Fill this out. This last line should rhyme with the first line. Only one answer from one family. Write plainly and use the coupon only as no answer will be accepted unless this is done. The best answer in the opinion of the judges will be awarded the first prize. Others in accordance to their value. All answers must be delivered to us by mail or in person on or before 5:30 p. m., January 22nd, 1910.

Contest Closes January 22nd, 1910

MCARTHY FLAYS THEODORE A. BELL

"Traitor to Labor," He Says and Then He Lauds Some Acts of Gov. Gillett

MONTEREY, Jan. 18.—Another change in the political aspect of things Democratic has been reached because of the attack made upon Theodore A. Bell by Mayor P. H. McCarthy in his annual report before the State Building Trades Council yesterday. It was an official statement as president of that body, McCarthy warned the labor men against the possible Democratic candidate for Governor because Bell had opposed him in the San Francisco Mayorality fight.

"Theodore A. Bell, who was supported by union labor throughout this State for Governor at the last gubernatorial election," said McCarthy in his address, "is a living example of this most vicious form of mankind. During the last Mayoralty fight in San Francisco, in which your general president was a candidate for the office of Mayor, this same Theodore A. Bell, from Napa, was brought into San Francisco by the political clique of petty political bosses who control him. Night after night did he proceed to malign the good name of your general president; indeed, he did not hesitate to misuse the good name of organized labor."

WAS WICKED LIAR.

"He did not refrain from lying most wickedly about me. No. He was so wicked that he could not get over it, and when challenged to prove his statements he was compelled to crawl into the darkness of his own political corruption. It is well to remember these things, brothers, and in this connection I would feel false to the trust imposed upon me if I did not call to your attention some very important facts."

PRAISES GOVERNOR GILLET.

"Three years ago the Union Labor party, in regular convention assembled, nominated Theodore A. Bell for Governor and supported him with all the strength at its command, as against the present Governor, James N. Gillett. Yet when Buckley, Moran and Duncan, three union men, one of whom was sentenced to be hanged, and their cases brought before Governor Gillett, though they were being bitterly fought by a coterie of men in San Francisco and elsewhere, who subscribed to a fund for special counsel that they might be punished, less death. Hence Governor Gillett has pardoned Buckley, who was four times placed in the death cell, and is now dealing with the other two, Moran and Duncan, who will also be set free by the Governor."

"He saved them by setting aside the opposition, strong as it was, believing as he did that no innocent man should suffer imprisonment, much less death. Hence Governor Gillett has pardoned Buckley, who was four times placed in the death cell, and is now dealing with the other two, Moran and Duncan, who will also be set free by the Governor."

Will Make a Fight For The Tide Lands

VALLEJO, Jan. 18.—The blue prints of the survey of the tide lands about this city have been completed and forwarded to the offices of Civil Engineer John Biddle, U. S. A., with offices in San Francisco.

At the present time Biddle is in Honolulu attending to government work that is being done at Pearl Harbor, but has promised to give this matter his immediate attention upon his return from the Hawaiian Islands.

Vallejo is making a strong fight for the tide lands that border upon her water front.

POSTOFFICE THIEF WILL BE TAKEN BACK

SEATTLE, Jan. 18.—Royal H. Edwards, the youth who admitted in the Police Court here last week that he is wanted in Harrisburg, Pa., for stealing \$1800 worth of money orders from a post-office sub-station in which he was a clerk, will be taken back to Pennsylvania to stand trial, an order to this effect having been issued yesterday.

HANDS AND FEET WERE SWOLLEN

Case of Inflammatory Rheumatism at Portland That Resisted Ordinary Treatment.

Almost any pain or ache which cannot readily be accounted for is usually classified as rheumatism. Some of these are transient and cure themselves.

An actual attack of rheumatism is very difficult to cure so that it will be cured. Ordinary treatment aims only to relieve the pain until the attack wears itself out. Then it is liable to occur again and usually does, year after year. The only lasting cure is secured by driving the rheumatic poison from the system and building up the blood so that the disease is prevented from obtaining a new foothold.

The cure of Mrs. E. Olson, of No. 972 Union avenue, North, Portland, Ore., is a good example of the power of Dr. Williams' Pink Pills in cases of rheumatism. She says:

"A few years ago I was suffering from inflammatory rheumatism which came on me all at once. At the time of the attack I was in a run-down condition. My blood was impure and I had no power to do anything. I suffered from dull, aching pains through my hands and feet which soon became swollen.

"My doctor prescribed for me and sent me to bed. While there I felt better but soon I got up I was as badly off as ever. In fact I became so much worse that I was unable to open my left hand. I had been confined to bed for two weeks and was greatly discouraged. My chance I happened to read about Dr. Williams' Pink Pills in a paper and decided to try them. I felt better after taking the first box of the pills and, I continued to take them until I was entirely cured. I have never had a return of the rheumatism."

Dr. Williams' Pink Pills are guaranteed to be free from opiates or harmful drugs.

If you are interested in the remedy that cured Mrs. Olson, write today for a copy of the new edition of our book on "Diseases of the Blood." It contains information that may save you money and suffering.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Wm. C. Williams, Lowell, Mass.

LADY CONSTANCE SHOCKS BISHOP

He Leaves Music Hall When She Does Her Daring Barefoot Dance

LONDON, Jan. 18.—Lady Constance Stewart Richardson made her first appearance last night as a professional paid "barefoot dancer" at a public music hall. She has given her dances for money before, but at private affairs for charity, the last time being at Covent Garden. At that performance the bishop of London was present but left when Lady Constance appeared.

Her exhibition last night was the most daring display that London has seen and it has witnessed dances by Maud Allan, Isadora Duncan, Gertrude Hoffman and many others of the so-called Greek dancers.

It was given at Alfred Bette's Palace music hall, where Lady Constance received a salary of about \$1000 a week, which is said she will devote to charity. When she appeared on the stage the audience sat up and gasped. She wore a flimsy drapery practically transparent. Her costume was such that it would not have been tolerated if worn by a professional dancer, but worn by a woman of title nothing was done.

In this costume she gave four dances much the same as those she has given at other times although perhaps more daring than those she gave in New York when she danced before society there.

The audience was silent until she had finished the last dance and then broke into thunderous applause.

NEW STONEHURST-ELMHURST SERVICE

Commencing at once convenient morning and evening trains leave Oakland and San Francisco for the named points. This is an ideal residence location and fares are very low. Commutation rates San Francisco and Stonehurst \$5.00 and Oakland \$2.50. Elmhurst commutation fare from San Francisco \$4.50 and Oakland \$2.50. One way San Francisco to Stonehurst 15 cents, one way Oakland to Stonehurst 5 cents, one way San Francisco to Elmhurst 15 cents, one way Oakland to Elmhurst 5 cents. See Southern Pacific agents.

It is a dangerous thing to take a cough medicine containing opiates that merely stifle your cough instead of curing it. Foley's House-hold Cough Cure cures the cough and expels the poisonous germs thus preventing pneumonia and consumption. Refuse substitutes and take only the genuine Foley's House- and Ear in the yellow package. Sold by Dr. J. C. Foley, 1110 Clay Street, Oakland, Cal.

BANK DECLARES SECOND DIVIDEND

Defunct Union National Ready to Pay Additional 30 Per Cent on Deposits

The depositors of the defunct Union National Bank will be glad to learn that the checks of the Comptroller of the Treasury for the second dividend of 30 per cent of their deposits are now ready for distribution, as the subpoenaed letter of the United States receiver shows. This dividend restores to the depositors 55 per cent of the money due to them, and the receiver has given assurance that the remaining interest will be paid up before the final winding up of the bank's affairs. Following is Receiver Morris' communication:

Editor TRIBUNE: Kindly announce through the columns of THE TRIBUNE that the dividend checks for the second dividend payable to creditors of the Union National Bank have been received and are ready for immediate distribution at the receiver's office, 425 First National Bank building. Depositors must present their receiver's certificates in order that payment may be entered upon the same. Stockholders who are also creditors must give bond protecting the trust against their failure to pay an assessment in case one were made before they can receive their checks. Respectfully, H. N. MORRIS, Receiver.

BYRON Hot Springs

WATCH YOUR GOAT; MIKADO'S ENVOY WANTS TO GET IT

CHICAGO, Jan. 18.—Tuberculosis is to be combated in Japan by the use of goat's milk in place of that of the cow. If the present plans of the mikado bear fruit, less tuberculosis, special envoy from Japan, is now in Chicago on a mission to study the goat. "We are greatly exercised over the infant food problem in Japan," he said yesterday.

"We believe that cow's milk is dangerous for children, so we have decided to return to the old-fashioned method of getting it from goats."

KONDON'S CATARRHAL JELLY

Especially valuable in nasal affections of children—mild, pure, and sanitary. Specially recommended by physicians for children with cold in the head, which so often brings on chronic nasal catarrh. SAWYER, Director Paso Robles Hot Springs, Paso Robles, Cal.
"Any one can get well here."—Admiral Robey D. Evans.

STOCKTON WOMAN DROPS FROM SIGHT

Mrs. Theodosia Arnold and Her Two Children Cannot Be Found

STREATOR, Ill., Jan. 18.—Oliver Lelp of Irving, Ill., was here yesterday in a vain effort to locate Mrs. Theodosia Arnold and her two children, who left their home at Stockton, Cal., September 12, to visit her parents at Irving, but who have not yet arrived here.

Mrs. Arnold had a \$300 check when she left California. This was cashed in Chicago, the paper being endorsed by a woman and two unknown men.

The relatives fear these men may have been instrumental in putting Mrs. Arnold out of the way to get the money.

Catarrhal Deafness Avoided and Cured

Prove this to yourself by writing us today for a free sample, postpaid, of this permanent, safe and speedy cure—aromatic, soothing, healing. Or ask your favorite Druggist for
